I. Call to Order

The Meeting of the Retirement Board was called to order at 1:05 p.m., on Wednesday, December 28, 2022.

II. Roll Call of Members

The Executive Director was asked to call the roll, and the following members were present: General Treasurer Seth Magaziner; John P. Maguire, Vice Chair; Ernest Almonte; Roger P. Boudreau, Mark A. Carruolo, Joseph Codega, Jr.; Paul L. Dion, Ph.D.; Matthew K. Howard; Claire M. Newell; Raymond J. Pouliot; Jean Rondeau, James E. Thorsen, Michael J. Twohey, and Lisa A. Whiting.

Also in attendance: Frank J. Karpinski, ERSRI Executive Director; Attorney Michael P. Robinson, Board Counsel.

Members absent: Dr. Laura Shawhughes.

Recognizing a quorum, Treasurer Magaziner called the meeting to order.

III. Approval of Minutes

On a motion duly made by Ernest Almonte and seconded by John P. Maguire it was unanimously

VOTED: To approve the draft meeting minutes of the September 21, 2022 Retirement Board meeting.

IV. Chairperson's Report

Treasurer Magaziner extended gratitude to all Board members for their hard work over the last eight years and indicated that it has been a pleasure to work with each of them as General Treasurer for his two terms in office.

V. Executive Director's Report

Executive Director Karpinski thanked the Treasurer for his stewardship of the fund during his two terms in office. He then provided the Board with a 2023 calendar for

scheduled Board and Committee meetings. He also updated the Board with regard to the procedure to be followed for conducting the Executive Director Performance Evaluation in accordance with the *Charter for the Executive Director—Board Governance*, and requested that Board members complete and return their evaluation forms to Board counsel Attorney Robinson on or before January 16, 2023.

The Executive Director also noted that 76 employers have achieved the 80% funding threshold in order to qualify for COLA benefits, which will be 3.11%. He noted that the COLA benefits will be based on an index of \$28,878 for those employees with dates of retirement after June 30, 2015, and an index of \$34,654 for those employees with dates of retirement before June 30, 2015.

Executive Director Karpinski then introduced Joseph P. Newton, FSA, EA, MAAA and Paul T. Wood, ASA, MAAA, FAC, Senior Consultant of Gabriel, Roeder, Smith and Company (GRS), who presented the Actuarial Valuation as of June 30, 2022 for the ERS (State and Teachers), MERS Plans (Municipal Employees), State Police (SPRBT), State Police Retirement Fund Trust (SPRFT), Judges (JRBT), Judicial Retirement Fund Trust (RIJRFT) and the Teacher Survivor Benefits Plan (TSBP).

At the conclusion of the presentation of the valuation results, Jean Rondeau, Chair of the Administration, Audit, Risk & Compliance Committee, reported that the Committee had met on December 15, 2022 to consider the valuations as presented by GRS. After discussion and consideration of the valuations as presented, the Committee voted to recommend to the full Board acceptance and approval of the valuations as presented.

Accordingly, on a motion by Jean Rondeau and seconded by Mark A. Carruolo, it was unanimously

VOTED: To accept the recommendation of the Administration, Audit, Risk & Compliance Committee to accept and approve the results of the ERS (State and Teachers), MERS Plans (Municipal Employees), State Police (SPRBT), State Police Retirement Fund Trust (SPRFT), Judges (JRBT), Judicial Retirement Fund Trust (RIJRFT) and the Teacher Survivor Benefits Plan (TSBP) valuations as of June 30, 2022, as presented by GRS.

VI. Approval of the September, October, November and December 2022 Pensions as Presented by ERSRI

On a motion duly made by Roger P. Boudreau and seconded by John P. Maguire, it was unanimously

VOTED: To approve the September, October, November, and December 2022 Pensions as presented by ERSRI.

VII. Legal Counsel Report

Attorney Robinson updated the Board with regard to the recent fully favorable decision issued by the Superior Court in the matter of *Bailey v. ERSRI*, PC-2021-06635 (Stern, J.).

Member Services Committee

Roger P. Boudreau noted that the Member Services Committee has met on multiple occasions to discuss implementation of and transition to the new website, which was soft-launched in June. He also noted that the Committee met in July to discuss member communication objectives with the Retirement System's website development and communications consultant. The Committee discussed member engagement and information communication and has finalized a marketing and communications plan, with corresponding objectives for achieving desired outcomes, including six (6) mailings of the Compass per year, as well as potential electronic informative communications as appropriate. Instructional and educational videos are also planned, along with facility updates and upgrades to make for a more welcoming and user-friendly experience.

IX. Adjournment

There being no other business to come before the Board, on a motion by Roger P. Boudreau, and seconded by James E. Thorsen, it was unanimously voted to adjourn the meeting at 2:28 p.m.

Respectfully submitted,

Frank J. Karpinski

Presented by Michael P. Robinson

**EMPLOYEES' RETIREMENT SYSTEM OF THE STATE OF RHODE ISLAND
REPORT AS OF FEBRUARY 2023
ON LITIGATED MATTERS FILED BY OR AGAINST ERSRI**

I. MATTERS WITH PROCEDURAL OR SUBSTANTIVE CHANGES

Anganie Williams v. Employees' Retirement System of Rhode Island (ERSRI).

Providence Superior Court; C.A. No. PC-2022-06276

Change. Plaintiff, an employee at the Rhode Island Department of Motor Vehicles, challenges the Retirement Board's denial of her application for an accidental disability pension. The Designation of Administrative Record and an Answer have been filed with the court, and the parties have agreed upon a briefing schedule. **Ms. Williams has filed her brief with the Superior Court.**

Rhode Island Troopers Association and James Donnelly-Taylor v. State of Rhode Island, Division of the State Police, James Manni, Colonel of the State Police, Governor Gina Raimondo, Employees' Retirement System of Rhode Island, by and through the General Treasurer, Seth Magaziner, and the Retirement Board

Providence County Superior Court; C.A. No. PC-2019-11054

Change. Plaintiffs seek a declaratory judgment and bring an administrative appeal challenging a decision of the Colonel of the Division of State Police concerning disability pension benefits. Plaintiff Donnelly-Taylor's application for a work-related disability pension was denied by the Colonel, and the Plaintiffs seek a declaratory judgment concerning the authority of the Superintendent of the State Police to make determinations on disability applications. Plaintiffs also seek reversal of the Superintendent's decision. Judge McGuirl issued a decision on November 4, 2021 granting ERSRI's motion for summary judgment and affirming the position that ERSRI is not responsible for adjudicating trooper disability applications. The decision denied ERSRI's motion for entry of separate and final judgment. The decision also remanded the matter to the Colonel for a supplemental decision. Following remand, on April 21, 2022, the Colonel issued a supplemental decision which again affirmed the denial of the disability application. A conference was conducted on July 1, 2022 with Judge McHugh. The Court allowed the Plaintiff and the Colonel time to file additional supplemental briefs on the merits of the Colonel's disability determination. **On January 9, 2023, Judge McHugh rendered a bench decision: 1) affirming the grant of summary judgment in favor of ERSRI on Count I and holding that the Superintendent of the State Police has statutory authority to decide state trooper disability pension applications; and 2) holding that the Colonel's decision (as supplemented) was arbitrary and capricious. The Court reversed the Colonel's decision and remanded the application to the current Colonel with instructions to immediately process the pension effective as of the date of his application. The State of Rhode Island, Division of State Police, Colonel Weaver, and Governor McKee have filed a notice of appeal to the Rhode Island Supreme Court.**

II. MATTERS WITH NO PROCEDURAL OR SUBSTANTIVE CHANGES

Dawn Eidam v. Employees' Retirement System of Rhode Island (ERSRI).

Kent County Superior Court; C.A. No. KC-2022-0659

No change. Plaintiff, a Community Living Aide with the State of Rhode Island/RICLAS, challenges the Retirement Board's approval of her application for an accidental disability pension at the 50% benefit allowance pursuant to R.I.G.L. §36-10-15(b). The Designation of Administrative Record and an Answer have been filed with the court, along with a stipulated briefing schedule.

Robert Bell v. Employees' Retirement System of Rhode Island

Workers' Compensation Court; 202200815

No change. Plaintiff, a former Fire Captain with the North Providence Fire Department, appeals MERS' denial of his Application for Accidental Disability Retirement pursuant to R.I. Gen. Laws § 45-21.2-9. MERS has filed a Designation of Record of Administrative Appeal with the Court. A pretrial conference took place on March 7, 2022 at which time a pro forma denial of the appeal was entered, and Mr. Bell thereafter filed a claim for trial. Initial hearings have been conducted. The Court scheduled the matter for trial on September 27, 2022, at which time Mr. Bell appeared and presented testimony. Based upon Mr. Bell's trial testimony, the parties are cooperating on securing updated medical records from a variety of medical care providers.

Michael Bronson v. Employees' Retirement System of Rhode Island

Workers' Compensation Court; 202201111

No change. Plaintiff, a police officer with the South Kingstown Police Department, appeals MERS' denial of his Application for Accidental Disability Retirement pursuant to R.I. Gen. Laws § 45-21.2-9. MERS has filed a Designation of Record of Administrative Appeal with the Court. A pretrial conference took place on March 21, 2022 at which time a pro forma denial of the appeal was entered, and Bronson thereafter filed a claim for trial. An initial hearing was conducted on August 19, 2022. The matter was extensively conferenced, and the parties are in the process of attempting to narrow any disputes regarding exhibits to be introduced at trial.

Helen Reardon v. Employee's Retirement System of Rhode Island

Kent County Superior Court; KC-2021-0784

No change. Plaintiff, a former employee with the Rhode Island Department of Human Services, appeals the denial of her Application for Accidental Disability Retirement pursuant to R.I. Gen. Laws § 36-10-14. ERSRI has filed an Answer and the Designation of Record of Administrative Appeal with the Court. The parties have fully briefed the issues, and the matter has been assigned to Judge Brian Van Couyghen for decision.

The Retirement Board of the Employees' Retirement System of the State of Rhode Island v. Shanice In

Providence County Superior Court; C.A. No. PC-2020-07704

No change. This is an action to revoke or reduce Defendant, Shanice In's pension pursuant to the Public Employee Pension Revocation and Reduction Act. Ms. In, a former Clerk for the Bureau of Criminal Identification Department for the State of Rhode Island, pled *nolo contendere* to felony charges related to illegally tampering with records at the Attorney General's BCI Office for the purpose of fraudulently clearing the criminal records of other individuals. Ms. In was served on July 14, 2021. The Court granted ERSRI's application for default for Ms. In's failure to answer the Complaint.

Richard P. D'Addario v. Employees' Retirement System of Rhode Island and Rhode Island State Employee's Retirement Board

Providence Superior Court; C.A. No. PC-2019-10351

No change. Plaintiff, a probate judge in the Town of Tiverton, appeals from the Retirement Board's determination that he is not eligible for membership in the Retirement System. The parties are in the process of coordinating service of process. The Designation of Record and Answer have been filed with the Court.

Retirement Board v. Ambulai Sheku

Providence County Superior Court; C.A. No. PC-2017-3146

No change. This is an action to revoke or reduce Mr. Sheku's pension pursuant to the Public Employee Pension Revocation and Reduction Act. Mr. Sheku, a former employee of the Rhode Island Department of Labor and Training, pled guilty to charges of conspiracy to commit mail fraud, theft of government funds, and accessing a protected computer to commit fraud, all in connection with his public employment. Mr. Sheku has been defaulted for failure to respond to the Complaint.

Margaret Provoyeur v. Employees' Retirement System of the State of Rhode Island**Providence Superior Court; C.A. No. PC-2015-2609**

No change. Plaintiff, a Providence schoolteacher, appeals the denial of her application for an accidental disability pension. On August 24, 2016, Plaintiff filed a motion to remand the matter to the Disability Subcommittee for the consideration of additional evidence. ERSRI filed an objection, and on October 28, 2016, the Superior Court denied the motion to remand.

Albert DelMastro, Jr. v. Employee's Retirement System of Rhode Island**Providence County Superior Court; C.A. No. PC-2014-1850**

No change. Plaintiff, an electrician with the Community College of Rhode Island, appeals the denial of his application for an accidental disability pension. The Retirement System has filed an Answer and the Designation of Record of Administrative Appeal with the Court.

Retirement Board v. Rachel Arruda**Providence County Superior Court; C.A. No. PC-2014-6174**

No change. This is an action to revoke or reduce Ms. Arruda's pension pursuant to the Public Employee Pension Revocation and Reduction Act. Ms. Arruda, a former employee of the City of Woonsocket, pled *nolo contendere* to a felony charge related to conversion of funds in connection with her municipal employment. At a hearing on January 29, 2015, Arruda stipulated to the suspension of her pension pending adjudication of the action.

The Retirement Board of the Employees' Retirement System of the State of Rhode Island v. Gerard M. Martineau**Providence County Superior Court; C.A. No. PC-2015-1268**

No change. This is an action to revoke or reduce Mr. Martineau's pension pursuant to the Public Employee Pension Revocation and Reduction Act. Mr. Martineau, a former elected official of the State of Rhode Island, pled *nolo contendere* to charges of Honest Services Mail Fraud in connection with his public employment. Mr. Martineau was served with the Complaint on April 2, 2015. Mr. Martineau has agreed to voluntarily relinquish any entitlement to a pension or other benefit he might otherwise have been entitled to, and documents necessary to obtain court approval of revocation of his pension have been sent to him for review.

Benita Fernandez v. Employee's Retirement System of Rhode Island

Providence County Superior Court; C.A. No. PC-2015-5489

No change. Plaintiff, a Social Caseworker II with DCYF, appeals the denial of her application for an accidental disability pension. The Retirement System has filed an Answer and the Designation of Record of Administrative Appeal with the Court.

Employees' Retirement System of Rhode Island v. Thomas McSoley, Marlene A. Palumbo, and Michael E. McSoley.

Providence Superior Court; C.A. No. PC-2016-1144

No change. ERSRI brought suit to recover monies overpaid to a direct deposit account of Thomas McSoley, following his death in 2011. The defendants are believed to be joint account holders with the decedent. ERSRI effectuated service of process, and sought an injunction preventing the defendants from accessing or withdrawing the funds. On March 18, 2016, the parties entered into a Consent Order that restrains the defendants from accessing, withdrawing, encumbering, or otherwise spending or disposing of the funds on account until further order of the Court.

The Retirement Board of the Employees' Retirement System of the State of Rhode Island v. Paul LaFrance

Providence County Superior Court; C.A. No. PC-2016-1524

No change. This is an action to revoke or reduce Mr. LaFrance's pension pursuant to the Public Employee Pension Revocation and Reduction Act. Mr. LaFrance, a former teacher for the Warwick School Department, pled *nolo contendere* to felony charges related to third degree sexual assault of a student. An Answer to the Complaint has been filed, and the parties are engaged in discovery.

A Monthly Meeting of the State Investment Commission (“SIC”) was called to order at 9:04 AM, Monday, November 21st, 2022 in the Executive Conference Room, Department of Administration.

I. Roll Call of Members

The following members were present: Mr. Frank Karpinski, Ms. Sylvia Maxfield, Mr. Jim Thorsen, Ms. Karen Hammond, Ms. Susan Chung, Mr. Thomas Fay¹, Mr. Al Cumplido, and Treasurer Seth Magaziner.

Also in attendance: Mr. Randall Miller, Funston Advisory Services; Ms. Tiffany Spudich, Capital Cities; Mr. Matt Maleri & Mr. Kevin Leonard, NEPC; Mr. Thomas Lynch, Cliffwater; Mr. Colin Hill, Meketa; Mr. Matthew Waters, Adler Pollock & Sheehan, legal counsel; Mr. Eric Baggesen, Chief Investment Officer; Ms. Kimberly Shockley, Defined Contribution Program Administrator; Mr. Chris Civittolo, Director of 529 Savings Programs; and other members of the Treasurer’s Staff.

Treasurer Magaziner called the meeting to order at 9:04 AM.

II. Approval of Minutes

On a motion by Ms. Sylvia Maxfield and seconded by Mr. Al Cumplido, it was unanimously **VOTED: to approve the draft meeting minutes of the September 28th, 2022 meeting of the State Investment Commission.**

III. SIC Governance Review, Funston Advisory Services

Treasurer Magaziner discussed the rationale for the SIC’s decision to hire Funston Advisory Services (“Funston”), which was to review the SIC’s governance structure and policies, emphasizing the benefits of periodically reviewing processes and ensuring that best practices are being implemented.

Mr. Randy Miller described Funston’s process of reviewing the SIC process. He noted that there is no single solution applicable to all public investment commissions and that the SIC will need to determine the solutions that are appropriate for its own circumstances. Mr. Miller discussed how Funston used its proprietary database, prior experience working with peers, interviews with the SIC and Treasury staff, as well as existing documents to produce a list of 30 recommendations for the SIC’s consideration. Mr. Miller summarized the recommendations in Funston’s report, which

¹ Mr. Thomas Fay arrived after the Roll Call of Members and Approval of Minutes. His temporary absence did not affect quorum.

include the adoption of a Commission Charter, the development of a Governance Policy Manual, consideration of including additional elements within the Investment Policy Statement, updating the ESG policy, and adopting new policies in other areas. Mr. Miller provided additional detail about the purpose of these recommendations and how they could potentially be implemented.

The Board asked questions.

IV. Defined Contribution & Deferred Compensation Annual Program Review, Capital Cities

Ms. Kimberly Shockley, Defined Contribution Program Administrator, introduced Capital Cities and the recommended changes to the Voya and Fidelity 457(b) Plans as well as the recommended updates to the Investment Policy Statement (“IPS”) for the 401(a) and 457(b) Plans.

Ms. Tiffany Spudich, Capital Cities, began the annual program review by noting Capital Cities’ work reviewing the defined contribution investment menu structures, investment offerings, fees, and Investment Policy Statements. Ms. Spudich summarized the capital under management within the 401(a) and each of the three 457(b) Plans, and their split between target date funds and stand-alone options. Ms. Spudich then reviewed the Capital Cities analysis of the Voya Small Company offering, noting that Capital Cities placed the offering on its watchlist in August of 2022 due to fund’s personnel and portfolio construction process changes. As a result of these changes, Capital Cities recommended removing this fund offering from the Voya 457(b) investment menu, and replacing it with the Boston Trust Walden SMID Cap offering. Ms. Spudich noted the improvement in the Invesco Diversified Dividend fund following the replacement of its portfolio manager and noted that the offering was removed from Capital Cities’ watchlist. Finally, Ms. Spudich provided an overview of retirement income products and discussed their increased relevance following the passage of the SECURE Act as a means for beneficiaries to decumulate assets.

The Board asked questions.

On a motion by Mr. Jim Thorsen and seconded by Ms. Sylvia Maxfield, it was unanimously **VOTED: to (i) eliminate Voya Small Company from the Voya 457(b) Plan and map assets to Boston Trust Walden SMID Cap (pending the Fund being added to Voya’s platform), and (ii) approve the amended and restated Investment Policy Statements with recommended updates by Capital Cities for the Rhode Island 401(a) Plan and Rhode Island 457(b) Plans.**

V. CollegeBound Annual Program Review, Capital Cities

Mr. Chris Civittolo, Director of 529 Savings Programs, introduced the annual CollegeBound Saver and CollegeBound 529 Plan reviews. Mr. Civittolo noted to the Board that the Saver plan is a direct-sold plan while the 529 plan is distributed through advisors. Mr. Civittolo noted that several enhancements were made in October of 2021, providing a full year of history for this review, and highlighted that all age-based plans implemented during that review have outperformed their custom benchmarks year-to-date. Finally, Mr. Civittolo previewed the language changes in the proposed Investment Policy Statement (“IPS”), which are meant to provide greater clarity around the roles of the program manager, Ascensus, and the investment manager, Invesco, in rebalancing

portfolios.

Ms. Tiffany Spudich, Capital Cities, provided a review of the CollegeBound Saver and CollegeBound 529 Plans, summarizing their structures, assets under management, and number of accounts. Ms. Spudich then discussed the underlying fund offerings, noting that in general, the underlying funds have seen improved performance since the recommended program changes in 2021. Ms. Spudich noted that the Diversified Dividend offering, which was removed from the Capital Cities watchlist for the defined contribution and deferred compensation plans, was also removed from the watchlist in the case of the CollegeBound Plans. Ms. Spudich discussed the fees charged by the CollegeBound Plans, noting that Rhode Island's programs tend to be cheaper than peer offerings. Finally, Ms. Spudich described the changes to the IPS meant to clarify the rebalancing procedure for the CollegeBound Plans.

On a motion by Mr. Tom Fay and seconded by Ms. Susan Chung, it was unanimously **VOTED: to approve the amended and restated Investment Policy Statement with recommended updates for the Rhode Island Tuition Saving Program, College Bound Saver and College Bound 529 Plans.**

VI. Legal Counsel Report

There was no legal counsel report.

VII. Chief Investment Officer Report

Mr. Eric Baggesen, Chief Investment Officer, commented on macroeconomic indicators, including the decline in business sentiment in recent months and the elevated level of the Federal Reserve balance sheet. Mr. Baggesen noted that the Fed has raised interest rates significantly in the last year, which affects the cost of borrowing, and pointed out that the yield curve has inverted, with short term rates higher than long term rates, which is often an indicator of economic turmoil. Mr. Baggesen discussed the high degree of volatility in financial markets across asset classes. Mr. Baggesen concluded by discussing the Total Fund performance, noting the benefits of diversification. Mr. Baggesen also noted that the Plan has outperformed the majority of peers over various periods, outperforming 93% of plans over \$1B in size year-to-date and a top decile performer over 1-, 3-, and 5-year periods. Mr. Baggesen thanked the Treasurer and the SIC for their strong stewardship and good decision-making during the Treasurer's tenure.

VIII. Treasurer's General Comments

Treasurer Magaziner noted that this meeting was the last SIC meeting of his tenure and thanked the SIC for their partnership. The Treasurer noted the strength of the group and applauded their hard work, engagement, and intellectual curiosity during his time as Treasurer. Treasurer Magaziner pointed out the achievement of outperforming the Plan's fiduciary return target of 7% over his time working with the SIC and commended the SIC's decision early in his tenure to implement the Crisis Protection Class, which mitigated losses during multiple periods of volatility. The SIC thanked Treasurer Magaziner for his work and leadership.

On a motion by Ms. Sylvia Maxfield and seconded by Mr. Thomas Fay, it was unanimously

VOTED: to adjourn the meeting at 11:10 AM.

Respectfully submitted,

James Diosa
General Treasurer

Asset Allocation Effect - Measures an investment manager's ability to effectively allocate their portfolio's assets to various sectors. The allocation effect determines whether the overweighting or underweighting of sectors relative to a benchmark contributes positively or negatively to the overall portfolio return. Positive allocation occurs when the portfolio is over weighted in a sector that outperforms the benchmark. Negative allocation occurs when the portfolio is over weighted in a sector that underperforms the benchmark and underweighted in a sector that outperforms the benchmark.

Selection Effect - Measures the investment manager's ability to select securities within a given sector relative to a benchmark. The over or underperformance of the portfolio is weighted by the benchmark weight, therefore, selection is not affected by the manager's allocation to the sector. The weight of the security in the portfolio determines the size of the effect -- the larger the security, the larger the effect is, positive or negative.

Interaction Effect - The interaction effect measures the combined impact of an investment manager's selection and allocation decisions within a sector. For example, if an investment manager had superior selection and over weighted that particular sector, the interaction effect is positive. If an investment manager had superior selection, but underweighted that sector, the interaction effect is negative. In this case, the investment manager did not take advantage of the superior selection by allocating more assets to that sector. Since many investment managers consider the interaction effect to be part of the selection or the allocation, it is often combined with either effect.

DISCLAIMERS & DISCLOSURES

Past performance is no guarantee of future results.

Returns for pooled funds, e.g. mutual funds and collective investment trusts, are collected from third parties; they are not generally calculated by NEPC. Returns for separate accounts, with some exceptions, are calculated by NEPC. Returns are reported net of manager fees unless otherwise noted.

A “since inception” return, if reported, begins with the first full month after funding, although actual inception dates (e.g. the middle of a month) and the timing of cash flows are taken into account in Composite return calculations.

NEPC’s preferred data source is the plan’s custodian bank or record-keeper. If data cannot be obtained from one of the preferred data sources, data provided by investment managers may be used. Information on market indices and security characteristics is received from additional providers. While NEPC has exercised reasonable professional care in preparing this report, we cannot guarantee the accuracy of all source information contained within. In addition, some index returns displayed in this report or used in calculation of a policy index, allocation index or other custom benchmark may be preliminary and subject to change.

All investments carry some level of risk. Diversification and other asset allocation techniques are not guaranteed to ensure profit or protect against losses.

The opinions presented herein represent the good faith views of NEPC as of the date of this presentation and are subject to change at any time. Neither fund performance nor universe rankings contained in this report should be considered a recommendation by NEPC.

*IRR refers to the fund's Internal Rate of Return, or the annualized compounded yield on an investment. This calculation is typically applied in private equity where there are multiple points at which capital is invested (capital called) and at which it is distributed. A positive IRR means that the fund's current value plus any cash distributions are greater than the cash value contributed and management fees paid. Typically a fund will have a negative IRR during the first few years of its life, a period referred to as the "J-Curve", because cash is invested upfront and it takes time to generate value. It is important to consider a fund's start date (vintage year) when assessing IRRs. Multiple of investment is another indicator of returns, and is calculated by dividing the fund's cumulative distributions and current value, after fees, by the amount of capital paid in. Please note that performance calculations are specific to the ERSRI investment, and were not prepared, reviewed or approved by the General Partners.

**Other funds in aggregate are the total commitments to and amounts drawn and distributed by funds whose confidentiality provisions do not permit the disclosure of their performance data. These funds include Braemar Energy Ventures III, Constellation Ventures III, Thomas, McNerney & Partners and Thomas McNerney & Partners II.

*IRR refers to the fund's Internal Rate of Return, or the annualized compounded yield on an investment. This calculation is typically applied in private equity where there are multiple points at which capital is invested (capital called) and at which it is distributed. A positive IRR means that the fund's current value plus any cash distributions are greater than the cash value contributed and management fees paid. Typically a fund will have a negative IRR during the first few years of its life, a period referred to as the "J-Curve", because cash is invested upfront and it takes time to generate value. It is important to consider a fund's start date (vintage year) when assessing IRRs. Multiple of investment is another indicator of returns, and is calculated by dividing the fund's cumulative distributions and current value, after fees, by the amount of capital paid in. Please note that performance calculations are specific to the ERSRI investment, and were not prepared, reviewed or approved by the General Partners.

**Other funds in aggregate are the total commitments to and amounts drawn and distributed by funds whose confidentiality provisions do not permit the disclosure of their performance data. These funds include Summit Credit Partners I and Summit Credit Partners II.

*IRR refers to the fund's Internal Rate of Return, or the annualized compounded yield on an investment. This calculation is typically applied in private real estate where there are multiple points at which capital is invested (capital called) and at which it is distributed. A positive IRR means that the fund's current value plus any cash distributions are greater than the cash value contributed and management fees paid. Typically a fund will have a negative IRR during the first few years of its life, a period referred to as the "J-Curve", because cash is invested upfront and it takes time to generate value. It is important to consider a fund's start date (vintage year) when assessing IRRs. Multiple of investment is another indicator of returns, and is calculated by dividing the fund's cumulative distributions and current value, after fees, by the amount of capital paid in. Please note that performance calculations are specific to the ERSRI investment, and were not prepared, reviewed or approved by the General Partners.

% -ile --> Percentile Ranking in Morningstar Category.

Note: Rankings shown for returns are calculated by Morningstar. Rankings for expense ratio is calculated by TIAA and may differ based on calculation methods.

Morningstar peer rankings include fractional weights for all share classes. Morningstar peer rankings also include ETFs. Depending on the category, this may cause some variances with the category median illustrated in this report since most ETFs are index based options that can include more volatile and less mainstream indices.

SI = Since Inception Annualized Total Return; Incep. Date = Since Inception Date (SI return is calculated from this date).

1. TIAA Stable Value is not an investment for purposes of federal securities laws; it is a guaranteed insurance contract. Therefore, unlike a variable annuity or mutual fund, TIAA Stable Value does not include an identifiable expense ratio. The contract provides a guaranteed minimum rate of interest of between 1% and 3% (before deductions for contract fees). Contract Fees are described in the annuity contract and are collected on a daily basis by way of a reduction to the Declared Rate. Payment obligations and the fulfillment of the guarantees provided for in the contract in the accumulation phase are supported by the assets held in the separate account. If the assets in the separate account are insufficient to meet these obligations, the shortfall is supported by the General Account of TIAA and is therefore subject to TIAA's claims-paying ability. Past interest rates are not indicative of future interest rates. The TIAA Stable Value Inception Date represents the date that the plan's TIAA Stable Value record was initiated on TIAA's recordkeeping system which may be earlier than the date of first deposit to the contract.
2. Calvert Social Index through December 16, 2005; FTSE4Good US Select Index thereafter.
3. Investor share migrated to Admiral share 08/1/2019.
4. Performance shown for periods prior to the inception date reflects the performance of an older share class of the fund/account or underlying fund. Total returns have not been restated to reflect any expense differential between any of the classes. Had the expense differential been reflected, total returns for the fund may have been higher or lower. Category ranks are not available for periods prior to the inception of the fund. Percentile rankings are not shown for State Street Global All Cap Equity Ex-U.S. Index Securities II because Morningstar does not provide a longer history for the product.
5. This Fund is a collective investment trust and is not FDIC insured, nor is it an obligation or deposit of, or guaranteed by State Street Corporation, SSGA or its affiliates.
6. This investment is not a mutual fund. It is a collective trust available only to tax-qualified plans and their eligible participants. This collective trust is managed by Vanguard Fiduciary Trust Company, a wholly owned subsidiary of The Vanguard Group, Inc., and is not a mutual fund. Investment objectives, risks, charges, expenses, and other important information should be considered carefully before investing.

You cannot invest directly in an index.

Accumulations in mutual funds not managed by TIAA-CREF may be subject to administrative charges. These charges are subject to change. Please review current documents related to your plan.

The expense ratio paid by an investor is the net expense ratio as stated in the prospectus. The net expense ratio reflects total annual fund operating expenses excluding interest expense. If interest expense was included, returns would have been lower. For definitions please visit www.tiaa.org/public/assetmanagement.

Vanguard Index Information available at <http://www.vanguard.com>.

Investing in non-investment grade securities presents special risks, including significantly higher interest-rate and credit risk.

Small-cap and mid-cap stocks may have limited marketability and may be subject to more abrupt or erratic market movements than large-cap stocks.

The risks associated with foreign investments are often magnified in emerging markets where there is greater potential for political, currency, and economic volatility.

Funds that invest in fixed-income securities are not guaranteed and are subject to interest-rate, inflation and credit risks.

Funds that invest in foreign securities are subject to special risks, including currency fluctuation and political and economic instability.

Real estate securities are subject to various risks, including fluctuations in property values, higher expenses or lower income than expected, and potential environmental problems and liability.

Any guarantees under annuities issued by TIAA are subject to TIAA's claims-paying ability. TIAA Stable Value is a guaranteed insurance contract and not an investment for Federal Securities Law purposes.

Target Date Funds share the risks associated with the types of securities held by each of the underlying funds in which they invest. In addition to the fees and expenses associated with the Target Date Funds, there is exposure to the fees and expenses associated with the underlying mutual funds as well.

The principal value of a target date fund isn't guaranteed at any time, including at the target date, and will fluctuate with market changes. The target date represents an approximate date when investors may plan to begin withdrawing from the fund. However, you are not required to withdraw the funds at the target date.

Investment, insurance and annuity products are not FDIC insured, are not bank guaranteed, are not deposits, are not insured by any federal government agency, are not a condition to any banking service or activity, and may lose value.

Morningstar Ranking/Number of Funds in Category displays the Fund's actual rank within its Morningstar Category based on average annual total return and number of funds in that Category. The returns assume reinvestment of dividends and do not reflect any applicable sales charge. Absent expense limitation, total return would be less. Morningstar Percentile Rankings are the Fund's total return rank relative to all funds in the same Morningstar category, where 1 is the highest percentile and 100 is the lowest percentile.

Prospectus Gross Expense Ratio

The percentage of fund assets used to pay for operating expenses and management fees, including 12b-1 fees, administrative fees, and all other asset-based costs incurred by the fund, except brokerage costs. Fund expenses are reflected in the fund's NAV. Sales charges are not included in the expense ratio.

--The expense ratio for fund of funds is the aggregate expense ratio as defined as the sum of the wrap or sponsor fees plus the estimated weighted average of the underlying fund fees.

--Often referred to as the Annual Operating Expense, the Prospectus Gross Expense Ratio is collected annually from a fund's prospectus.

Prospectus Net Expense Ratio

The percentage of fund assets, net of reimbursements, used to pay for operating expenses and management fees, including 12b-1 fees, administrative fees, and all other asset-based costs incurred by the fund, except brokerage costs. Fund expenses are reflected in the fund's NAV. Sales charges are not included in the expense ratio.

--The expense ratio for fund of funds is the aggregate expense ratio as defined as the sum of the wrap or sponsor fees plus the estimated weighted average of the underlying fund fees.

--Net reimbursements, the Prospectus Net Expense Ratio is collected annually from a fund's prospectus.

--TIAA, unless noted, does not charge additional fees for record keeping a fund. 12b-1, revenue share and admin fees are all included in the Prospectus fees. -- Prospectus Net Expense Ratio % - ile rank is the percentile rank for the fund. The better the expense ratio (lower) the lower the ranking out of 100.

TIAA is providing educational services concerning plan menu construction and the plan sponsor's fiduciary duties under its plan. It is not providing investment advice and is not a plan fiduciary with respect to the education and information presented herein. Note also that TIAA cannot and does not provide legal advice and that we recommend that you seek such advice from your own legal advisors.

TIAA reported performance may differ from Morningstar source returns for the same option over the same time period. We would expect an occasional one to two basis point difference. Morningstar Direct calculates returns by one share owned by hypothetical investor over the requested time period. The return for one year is calculated using the same formula as one month. TIAA calculates returns by \$1,000 owned by hypothetical investor for one month then links returns for requested time period. Both set of returns would include dividends and capital gains, if applicable.

Investment products may be subject to market and other risk factors. See the applicable product literature or visit tiaa.org for details. You should consider the investment objectives, risks, charges and expenses carefully before investing. Go to tiaa.org or call 877-518-9161 for product and fund prospectuses that contain this and other information. Please read the prospectuses carefully before investing.

TIAA-CREF Individual & Institutional Services, LLC, Member FINRA, distributes securities products. Annuity contracts and certificates are issued by Teachers Insurance and Annuity Association of America (TIAA) and College Retirement Equities Fund (CREF), New York, NY. 457(b) Performance Summary

As of 12/31/2022

% -ile --> Percentile Ranking in Morningstar Category.

Note: Rankings shown for returns are calculated by Morningstar. Rankings for expense ratio is calculated by TIAA and may differ based on calculation methods.

Morningstar peer rankings include fractional weights for all share classes. Morningstar peer rankings also include ETFs. Depending on the category, this may cause some variances with the category median illustrated in this report since most ETFs are index based options that can include more volatile and less mainstream indices.

SI = Since Inception Annualized Total Return; Incep. Date = Since Inception Date (SI return is calculated from this date).

1. Calvert Social Index through December 16, 2005; FTSE4Good US Select Index thereafter.
2. S&P MidCap 400 Index through May 16, 2003; the MSCI US Mid Cap 450 Index through January 30, 2013; and the CRSP US Mid Cap Index thereafter.
3. Russell 2000 Index through May 16, 2003; the MSCI US Small Cap 1750 Index through January 30, 2013; and the CRSP US Small Cap Index thereafter.
4. Investor share migrated to Admiral share 08/1/2019.
5. Performance shown for periods prior to the inception date reflects the performance of an older share class of the fund/account or underlying fund. Total returns have not been restated to reflect any expense differential between any of the classes. Had the expense differential been reflected, total returns for the fund may have been higher or lower. Category ranks are not available for periods prior to the inception of the fund. Percentile rankings are not shown for State Street Global All Cap Equity Ex-U.S. Index Securities II because Morningstar does not provide a longer history for the product.
6. It is important to remember that the TIAA Traditional Annuity is not an investment for purposes of federal securities laws; it is a guaranteed insurance contract. Therefore, unlike a variable annuity or mutual fund, the TIAA Traditional Annuity does not include an identifiable expense ratio.
7. This Fund is a collective investment trust and is not FDIC insured, nor is it an obligation or deposit of, or guaranteed by State Street Corporation, SSGA or its affiliates.
8. This investment is not a mutual fund. It is a collective trust available only to tax-qualified plans and their eligible participants. This collective trust is managed by Vanguard Fiduciary Trust Company, a wholly owned subsidiary of The Vanguard Group, Inc., and is not a mutual fund. Investment objectives, risks, charges, expenses, and other important information should be considered carefully before investing.

You cannot invest directly in an index.

Accumulations in mutual funds not managed by TIAA-CREF may be subject to administrative charges. These charges are subject to change. Please review current documents related to your plan.

The expense ratio paid by an investor is the net expense ratio as stated in the prospectus. The net expense ratio reflects total annual fund operating expenses excluding interest expense. If interest expense was included, returns would have been lower. For definitions please visit www.tiaa.org/public/assetmanagement.

Vanguard Index Information available at <http://www.vanguard.com>.

Investing in non-investment grade securities presents special risks, including significantly higher interest-rate and credit risk.

Small-cap and mid-cap stocks may have limited marketability and may be subject to more abrupt or erratic market movements than large-cap stocks.

The risks associated with foreign investments are often magnified in emerging markets where there is greater potential for political, currency, and economic volatility.

Funds that invest in fixed-income securities are not guaranteed and are subject to interest-rate, inflation and credit risks.

Funds that invest in foreign securities are subject to special risks, including currency fluctuation and political and economic instability.

Real estate securities are subject to various risks, including fluctuations in property values, higher expenses or lower income than expected, and potential environmental problems and liability.

Any guarantees under annuities issued by TIAA are subject to TIAA's claims-paying ability. TIAA Traditional is a guaranteed insurance contract and not an investment for Federal Securities Law purposes.

Target Date Funds share the risks associated with the types of securities held by each of the underlying funds in which they invest. In addition to the fees and expenses associated with the Target Date Funds, there is exposure to the fees and expenses associated with the underlying mutual funds as well.

The principal value of a target date fund isn't guaranteed at any time, including at the target date, and will fluctuate with market changes. The target date represents an approximate date when investors may plan to begin withdrawing from the fund. However, you are not required to withdraw the funds at the target date.

Investment, insurance and annuity products are not FDIC insured, are not bank guaranteed, are not deposits, are not insured by any federal government agency, are not a condition to any banking service or activity, and may lose value.

Morningstar Ranking/Number of Funds in Category displays the Fund's actual rank within its Morningstar Category based on average annual total return and number of funds in that Category. The returns assume reinvestment of dividends and do not reflect any applicable sales charge. Absent expense limitation, total return would be less. Morningstar Percentile Rankings are the Fund's total return rank relative to all funds in the same Morningstar category, where 1 is the highest percentile and 100 is the lowest percentile.

Prospectus Gross Expense Ratio

The percentage of fund assets used to pay for operating expenses and management fees, including 12b-1 fees, administrative fees, and all other asset-based costs incurred by the fund, except brokerage costs. Fund expenses are reflected in the fund's NAV. Sales charges are not included in the expense ratio.

--The expense ratio for fund of funds is the aggregate expense ratio as defined as the sum of the wrap or sponsor fees plus the estimated weighted average of the underlying fund fees.

--Often referred to as the Annual Operating Expense, the Prospectus Gross Expense Ratio is collected annually from a fund's prospectus.

Prospectus Net Expense Ratio

The percentage of fund assets, net of reimbursements, used to pay for operating expenses and management fees, including 12b-1 fees, administrative fees, and all other asset-based costs incurred by the fund, except brokerage costs. Fund expenses are reflected in the fund's NAV. Sales charges are not included in the expense ratio.

--The expense ratio for fund of funds is the aggregate expense ratio as defined as the sum of the wrap or sponsor fees plus the estimated weighted average of the underlying fund fees.

--Net reimbursements, the Prospectus Net Expense Ratio is collected annually from a fund's prospectus.

--TIAA, unless noted, does not charge additional fees for record keeping a fund. 12b-1, revenue share and admin fees are all included in the Prospectus fees. -- Prospectus Net Expense Ratio % - ile rank is the percentile rank for the fund. The better the expense ratio (lower) the lower the ranking out of 100.

TIAA reported performance may differ from Morningstar source returns for the same option over the same time period. We would expect an occasional one to two basis point difference. Morningstar Direct calculates returns by one share owned by hypothetical investor over the requested time period. The return for one year is calculated using the same formula as one month. TIAA calculates returns by \$1,000 owned by hypothetical investor for one month then links returns for requested time period. Both set of returns would include dividends and capital gains, if applicable.

Investment products may be subject to market and other risk factors. See the applicable product literature or visit tiaa.org for details. You should consider the investment objectives, risks, charges and expenses carefully before investing. Expense Ratio is the total annual fund operating expense ratio from the fund's most recent prospectus. For non-Fidelity fund of funds listed, the ratio shown may solely reflect the total operating expense ratio of the fund, or may be a combined ratio reflecting both the total operating expense ratio of the fund and the total operating expense ratios of the underlying funds in which it was invested. Please consult the fund's prospectus for more detail on a particular fund's expense ratio.

Total returns are historical and include change in share value and reinvestment of dividends and capital gains, if any. Cumulative total returns are reported as of the period indicated. Life of Fund figures are reported as of the inception date to the period indicated.

The management company may be temporarily reimbursing a portion of the fund's expenses. Absent such reimbursement, returns and yields would have been lower. A fund's expense limitation may be terminated at any time.

For any Government or U.S. Treasury Money Market funds listed: *You could lose money by investing in a money market fund. Although the fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The fund's sponsor has no legal obligation to provide financial support to money market funds and you should not expect that the sponsor will provide financial support to the fund at any time.* Fidelity's government and U.S. Treasury money market funds will not impose a fee upon the sale of your shares, nor temporarily suspend your ability to sell shares if the fund's weekly liquid assets fall below 30% of its total assets because of market conditions or other factors.

For any Retail (Non Government or U.S. Treasury) Money Market Funds listed: *You could lose money by investing in a money market fund. Although the fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. The Fund may impose a fee upon the sale of your shares or may temporarily suspend your ability to sell shares if the Fund's liquidity falls below required minimums because of market conditions or other factors. An investment in the fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The fund's sponsor has no legal obligation to provide financial support to money market funds and you should not expect that the sponsor will provide financial support to the fund at any time.*

For any Institutional Money Market Funds listed: *You could lose money by investing in a money market fund. Because the share price of the fund will fluctuate, when you sell your shares they may be worth more or less than what you originally paid for them. The Fund may impose a fee upon the sale of your shares or may temporarily suspend your ability to sell shares if the Fund's liquidity falls below required minimums because of market conditions or other factors. An investment in the fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The fund's sponsor has no legal obligation to provide financial support to money market funds and you should not expect that the sponsor will provide financial support to the fund at any time.*

A money market fund's current yield reflects the current earnings of the fund, while the total return refers to a specific past holding period.

Performance of an index is not illustrative of any particular investment and an investment cannot be made directly in an index.

Generally, among asset classes stocks are more volatile than bonds or short-term instruments and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. Although the bond market is also volatile, lower-quality debt securities including leveraged loans generally offer higher yields compared to investment grade securities, but also involve greater risk of default or price changes. Foreign markets can be more volatile than U.S. markets due to increased risks of adverse issuer, political, market or economic developments, all of which are magnified in emerging markets.

Before investing, consider the funds' investment objectives, risks, charges, and expenses. Contact Fidelity for a prospectus or, if available, a summary prospectus containing this information. Read it carefully.

PERFORMANCE UPDATE

Voya Retirement Insurance and Annuity Company

State of RI 457b Plan

Average Annual Total Returns as of: 12/31/2022 (shown in percentages)

Variable annuities and mutual funds offered through a retirement plan are intended as long-term investments designed for retirement purposes. Money distributed from a 403(b) plan, 401(a)(k) plan, or a 457 plan will be taxed as ordinary income in the year the money is distributed. Early withdrawals from a 403(b) plan and a 401(a)(k) plan, if taken prior to age 59 1/2, will be subject to the IRS 10% premature distribution penalty tax, unless an exception applies. This IRS premature distribution penalty tax does not apply to 457 plans. Account values fluctuate with market conditions, and when surrendered the principal may be worth more or less than the original amount invested.

The performance data quoted represents past performance. Past performance does not guarantee future results. For month-end performance which may be lower or higher than the performance data shown please call 800-232-5422. Investment return and principal value of an investment will fluctuate so that, when sold, an investment may be worth more or less than the original cost.

The below investment options are in Separate Account D. Please note that the figures do not include an adjustment for the Voya Administrative Fund Fee (where applicable) and the deduction of the Daily Asset Charge from the Separate Account (if applicable), or other applicable contract charges. If these fees and charges were included, performance would be less favorable.

The returns assume reinvestment of all dividends (ordinary income and capital gains) and are net of management fees and other fund operating expenses.

You should consider the investment objectives, risks and charges, and expenses of the funds carefully before investing. The prospectus contains this and other information. Anyone who wishes to obtain a free copy of the fund prospectuses may call their Voya representative or the number above. Please read the prospectus carefully before investing.

Returns less than one year are not annualized. Fund Inception Date is the date of inception for the underlying fund, and is the date used in calculating the periodic returns. This date may also precede the portfolio's inclusion in the product.

The risks of investing in small company stocks may include relatively low trading volumes, a greater degree of change in earnings and greater short-term volatility.

Foreign investing involves special risks such as currency fluctuation and public disclosure, as well as economic and political risks.

Some of the Funds invest in securities guaranteed by the U.S. Government as to the timely payment of principal and interest; however, shares of the Funds are not insured nor guaranteed.

High yielding fixed-income securities generally are subject to greater market fluctuations and risks of loss of income and principal than are investments in lower yielding fixed-income securities.

Sector funds may involve greater-than average risk and are often more volatile than funds holding a diversified portfolio of stocks in many industries. Examples include: banking, biotechnology, chemicals, energy, environmental services, natural resources, precious metals, technology, telecommunications, and utilities.

*The Gross Expense Ratios shown do not reflect temporary fee or expense waivers that may be in effect for a fund. The Net Expense Ratios reflect any applicable temporary fee or expense waivers. The performance of a fund with a temporary fee or expense waiver would have been lower if the gross fund fees/expenses listed had been reflected.

PERFORMANCE UPDATE

Voya Retirement Insurance and Annuity Company

State of RI 457b Plan

Separate Account D

Average Annual Total Returns as of: 12/31/2022 (shown in percentages)

Variable annuities and funding agreements are long-term investment vehicles designed for retirement purposes which allow you to allocate contributions among variable investment options that have the potential to grow tax-deferred with an option to receive a stream of income at a later date.

The performance data quoted represents past performance. Past performance does not guarantee future results. For month-end performance which may be lower or higher than the performance data shown please call 800-232-5422. Investment return and principal value of an investment will fluctuate so that, when sold, an investment may be worth more or less than the original cost.

These numbers reflect total Separate Account charges, ranging from 0.09% to 0.44% on an annual basis. They also assume reinvestment of all dividends (ordinary income and capital gains) and are net of management fees and other fund operating expenses. See "Additional Notes" section for charges by investment option.

The Daily Asset Charge ("DAC"), if applicable, is assessed against all amounts invested in the investment options under the contract and is expressed as an annual percentage. If a DAC is not applicable, there may be an annual asset-based fee deducted from your account for recordkeeping and administrative services provided to your employer's Plan. This fee may be waived, reduced, or eliminated in certain circumstances. If applicable, a pro-rata portion of the asset-based fee is calculated and deducted quarterly from all investment options, or from the mutual fund assets only, depending upon your employer's Plan. It will appear on your statements as a flat dollar amount deducted from all applicable investment options.

Depending upon the type of contract in which you participate, you have either received disclosure booklets for the separate account and/or fund prospectuses. You should consider the investment objectives, risks and charges, and expenses of the variable product and its underlying fund options carefully before investing. The disclosure booklet contains this and other information. Anyone who wishes to obtain a free copy of the separate account disclosure booklet and/or fund prospectuses may call their Voya representative or the number above. Please read the separate account disclosure booklet and/or the fund prospectuses carefully before investing.

Returns less than one year are not annualized. Fund Inception Date is the date of inception for the underlying fund, and is the date used in calculating the periodic returns. This date may also precede the portfolio's inclusion in the product.

The risks of investing in small company stocks may include relatively low trading volumes, a greater degree of change in earnings and greater short-term volatility.

Foreign investing involves special risks such as currency fluctuation and public disclosure, as well as economic and political risks.

Some of the Funds invest in securities guaranteed by the U.S. Government as to the timely payment of principal and interest; however, shares of the Funds are not insured nor guaranteed.

High yielding fixed-income securities generally are subject to greater market fluctuations and risks of loss of income and principal than are investments in lower yielding fixed-income securities.

Sector funds may involve greater-than average risk and are often more volatile than funds holding a diversified portfolio of stocks in many industries. Examples include: banking, biotechnology, chemicals, energy, environmental services, natural resources, precious metals, technology, telecommunications, and utilities.

Additional Notes

For a performance report reflecting the charges or more information regarding product expenses, please contact your Voya Representative.

(1)Voya Intermediate Bond Fund - Class I: The adviser is contractually obligated to limit expenses to 0.50% through August 1, 2018. The limitation does not extend to interest, taxes, investment-related costs, leverage expenses, extraordinary expenses, and Acquired Fund Fees and Expenses. This limitation is subject to possible recoupment by the adviser within 36 months of the waiver or reimbursement. Termination or modification of this obligation requires approval by the Fund's board.

(2)Voya Intermediate Bond Fund - Class I has identical investment objectives and policies, the same portfolio manager, and invests in the same holdings as Class A. The performance information above is based upon the Class A performance, excluding sales charges, and has not been adjusted by the fee differences between classes.

(3)There is no guarantee that any investment option will achieve its stated objective. Principal value fluctuates and there is no guarantee of value at any time, including the target date. The "target date" is the approximate date when you plan to start withdrawing your money. When your target date is reached, you may have more or less than the original amount invested. For each target date Portfolio, until the day prior to its Target Date, the Portfolio will seek to provide total returns consistent with an asset allocation targeted for an investor who is retiring in approximately each Portfolio's designation Target Year. Prior to choosing a Target Date Portfolio, investors are strongly encouraged to review and understand the Portfolio's objectives and its composition of stocks and bonds, and how the asset allocation will change over time as the target date nears. No two investors are alike and one should not assume that just because they intend to retire in the year corresponding to the Target Date that that specific Portfolio is appropriate and suitable to their risk tolerance. It is recommended that an investor consider carefully the possibility of capital loss in each of the target date Portfolios, the likelihood and magnitude of which will be dependent upon the Portfolio's asset allocation. On the Target Date, the portfolio will seek to provide a combination of total return and stability of principal.

The Voya Solution / Target Date PortfoliosSM are actively managed and the asset allocation adjusted over time. The portfolios may merge with or change to other portfolios over time. Refer to the prospectus for more information about the specific risks of investing in the various asset classes included in the The Voya Solution / Target Date PortfoliosSM.

Additional Notes

Stocks are more volatile than bonds, and portfolios with a higher concentration of stocks are more likely to experience greater fluctuations in value than portfolios with a higher concentration in bonds. Foreign stocks and small and midcap stocks may be more volatile than large cap stocks. Investing in bonds also entails credit risk and interest rate risk. Generally investors with longer timeframes can consider assuming more risk in their investment portfolio.
