**VOTED: To thank Carol E. Head, Joshua Ravitz and Jeffrey Grybowski for their fine work while employed by the General Treasurer's Office.**

Brinson Partners, Inc. Mr. Bensus gave a brief overview of Brinson Partners, Inc. which was retained in 1994 to provide a strategic allocation to the large stock/ value oriented segment of the domestic equity market. The Brinson allocation represents 4.8% of the total fund and 9.4% of the domestic equity composite. Market value at 6/30/98

was \$291.7 million. The portfolio is constructed with 92 securities and cash represented 1%.

Mr. Bensur introduced Ms. Elizabeth Sanders, Director - Account Management and Mr. Robert C. Moore, Managing Director. Mr. Moore stated that as a down turn from earlier periods over the last year the portfolio underperformed. Some of the factors impacting recent performance are: 1) outperformance by mega-cap stocks; 2) re-emergence of Asian concerns and global slowing; 3) the relative performance of large cap growth stock; 4) lower batting average on fundamentals.

NOTE: The Treasurer called a short recess from 10:40 a.m. to 10:50 a.m.

MacKay Shields Financial Corp. Mr. Bensur introduced MacKay Shields which was retained in 1994 at the same time as Brinson, with the same assignment to provide a strategic allocation to the large stock/value oriented segment of the domestic equity market. The MacKay allocation represents 4.2% of the total fund and 8.2% of the domestic equity composite. Market value at 6/30/98 was \$253.0 million. The portfolio is constructed with 72 securities and cash represents 2%.

Mr. Bensur introduced Ms. Mary Jane Cullinan, Director and Mr. Denis P. LaPlaigne, President. Mr. LaPlaigne stated that the portfolio is constructed on a bottom-up basis - purchasing stocks from the bottom 20% - using both quantitative and qualitative analysis. He stated that for the ten years ended 12/31/97, MacKay's value product has ranked in the top 10% of all equity managers despite ranking in the bottom quartile for the most recent year.

NOTE: To accommodate the schedules of Commission members, the Treasurer requested a break in the report of MacKay Shields in order to have votes taken on certain matters.

Alternative Investments Committee Recommendations. The Committee had met on September 17, 1998 to consider proposed alternative investments in Providence Equity Partners III, L.P. and Alta California Partners II, L.P. The Treasurer gave a brief synopsis of Providence Equity Partners III, L.P. which is being organized to acquire communications and media companies targeting individual investments of \$25-\$75 million in approximately 15-20 companies.

Alta California Partners II, L.P. is being organized to invest in private companies in the life sciences and information technology industries focusing on early-stage opportunities.

Senator Tavares moved, Ms. Gallogly seconded and the following motion was passed unanimously. The following members voted in favor: Gen. Apperson, Ms. Gallogly, Treasurer Mayer and Senator Tavares. (Representative Heffner was not present at the time of the vote.)

**VOTED: To invest \$15 million in Providence Equity Partners III, L.P. as recommended by Pacific Corporate Group contingent upon satisfactory review and negotiation of investment and other legal documents; and**

**to invest \$10 million in Alta California Partners II, L.P. as recommended by Pacific Corporate Group contingent upon satisfactory review and negotiation of investment and other legal documents and upon satisfactory documentation relating to the provision that the fund intends to make 60% of its investments in California.**

Proposed Modification of Investment Guidelines for International Managers. The Treasurer suggested that the Commission revise its actively managed international guidelines by removing the rigid regional allocations and allowing the managers to make active decisions for regional allocations, to further complement their active country selection and stock selection.

Each of the regional managers, Scudder and Schroders have the capabilities to manage an all-country mandate. Revised investment guidelines have been proposed by Wilshire which would remove the regional limitations and allow the managers to invest in all investible regions and in emerging markets. The managers have reviewed the guidelines and find them acceptable. General Apperson inquired about the original rationale of the regional mandates. Mr. Bensusan responded that at the time of the allocations, the regional mandates reflected the relative market sizes. There was discussion about the risks of managers' failure at regional allocation, along with country and stock selection.

The Treasurer also suggested that the Commission modify its approach to the passive portion of the international portfolio by moving to an active/passive approach. The investment manager would actively determine country allocations and passively implement the decisions by investing in country index funds or country replication methodology. Wilshire Associates has provided market research data that supports the advisability of this approach. The Commission's passive EAFE manager does not provide an established institutional product using this approach. Wilshire Associates has prepared a Request for Proposals to submit to the six firms with documented well-established track records in institutional management of an international active/passive product.

Senator Tavares moved, General Apperson seconded and the following motion was passed unanimously. The following members voted in favor: Gen. Apperson, Ms. Gallogly, Treasurer Mayer and Senator Tavares. (Representative Heffner was not present at the time of the vote.)

**VOTED: To adopt revised Investment Guidelines for Schroder Capital Management International and Scudder Kemper Investments, Inc. in the form presented to Commission members prior to the meeting; and**

**to modify the passive EAFE allocation to an active/passive allocation and solicit a Request for Proposals.**

Post Venture Distribution for Alternative Investments. The Treasurer reported that as the alternative investment portfolio matures and securities are distributed to the RIEERS, the need has arisen for a coordinator of the receipt and liquidation of those securities. The State Investment Commission will be receiving distributed securities directly. Ms. Schoenfeld reported on the Treasury's analysis leading to the recommendation that the Commission choose an investment advisory firm. The office evaluated six firms which are leaders in the post-venture distribution market. The Commission was asked to engage the services of Shott Capital Management in accordance with the terms of the Investment Manager Agreement distributed to Commission members prior to the meeting.

General Apperson moved, Senator Tavares seconded and the following motion was passed unanimously. The following members voted in favor: Gen. Apperson, Ms. Gallogly, Treasurer Mayer and Senator Tavares. (Representative Heffner was not present at the time of the vote.)

**VOTED: To approve the engagement of Shott Capital Management in accordance with the terms of the proposed Investment Manager Agreement to manage the distribution of securities distributed from the limited partnerships in the Alternative Investments Program.**

NOTE: Senator Tavares left the meeting at 11:55 a.m.

MacKay Shields Financial Corp. Mr. LaPlaigne completed the presentation of MacKay Shields' performance review.

Consultant Report - Wilshire Associates Incorporated. Providing his Capital Market Update, Mr. Bensus reported that the US stock market has experienced considerable volatility this past month. Unemployment claims, inflation, and interest rates remain low while the economy continues to grow at a moderate pace. The dollar's value has strengthened against most currencies of developed countries, causing a surge in the trade deficit. The US Treasury market has reaped the benefits of depressed stock markets. Investors seeking the safety of US Treasury issues have driven yields to unprecedented lows. As of 9/16/98 the 30-year Treasury Bond was yielding 5.22%.

Through 9/16/98 the broad US equity market has gained 3.6%, as measured by the Wilshire 5000 Index. Large cap stocks returned 9.0%, as measured by the S&P 500 Index. Small stocks continue trailing larger stocks. Large growth stocks have outpaced large value stocks while small value stocks have surpassed small growth stocks.

Also through 9/16/98 the MSCI EAFE Index returned 4.6%. Through September 16, 1998 the UK/Europe region, as measured by the MSCI Europe Index returned 16.5% but the Pacific Basin region, as measured by the MSCI Pacific Index, fell 15.4%. Emerging Markets returns - measured by the IFC Emerging Markets Index, dropped 31.7%. The bond market - measured by the Lehman Aggregate Bond Index returned 6.8%.

NOTE: Representative Heffner returned to the meeting at 12:35 p.m.

Deputy Treasurer for Finance Report. Mr. Thorsen stated that the portfolio had been quite volatile in the last few months with a peak in mid-July of \$6.1 billion which fell to a balance of \$5.6 billion presently.

There being no further business, the meeting was adjourned at 12:55 p.m.

Respectfully submitted,

We expect that the over-allocation to equities and fixed income will persist due to the challenge of investing the alternative investment commitment in an orderly fashion.
