STATE INVESTMENT COMMISSION

Regular Meeting October 22, 2003

A State Investment Commission meeting was held in Room 135, State House, Providence, Rhode Island on Wednesday, October 22, 2003. There being a quorum present, the Treasurer called the meeting to order at 9:20 a.m.

Membership Roll Call. Present were: Mr. J. Michael Costello, Senator Daniel DaPonte, Ms. Rosemary Booth Gallogly, Dr. Robert J. McKenna, Ms. Marcia Reback, Mr. James E. Thorsen, Mr. William J. Whitty, and General Treasurer Paul J. Tavares. Also present were: Mr. Joan M. Caine, Deputy Treasurer for Finance, Mr. William G. Bensur, Jr., of Wilshire Associates Incorporated, Consultant to the Commission, Jayne Donegan, Esq., of Brown Rudnick Berlack Israels, Legal Counsel to the Commission, Ms. Tara Blackburn, of Pacific Corporate Group, Alternative Investments Consultant to the Commission, and other members of the Treasurer's Staff.

State Investment Commission Minutes. Mr. Costello moved, Ms. Gallogly seconded and the following motion was passed unanimously. The following members voted in favor: Mr. Costello, Sen. DaPonte, Ms. Gallogly, Dr. McKenna, Ms. Reback, Mr. Thorsen, Mr. Whitty, and Treasurer Tavares.

VOTED: To approve the Minutes of the September 24, 2003 Regular Meeting.

Investment Manager Review – Bank of Ireland Asset Management (“BIAM”). Mr. Bensur of Wilshire Associates gave a brief overview of Bank of Ireland Asset Management. He noted BIAM was retained in 2001 to provide a long-term, strategic allocation to non-US or international equity markets. As of September 30, 2003, the portfolio’s market value was \$641.5 million, representing 49.7% of the non-US equity composite and 11.7% of the total fund. The portfolio is trailing the index year-to-date (9/30/03) by 8.58% and by 4.94% since inception.

Ms. Leila Long, Senior Vice President/Client Service and Mr. Ed Riley, Vice President/Client Service represented BIAM. Ms. Long reported that BIAM has \$59 Billion of assets under management worldwide, which includes \$25 Billion in North America. BIAM is an active, bottom-up stockpicker using fundamental analysis with a value discipline.

Mr. Riley reported that the fund is up 4.51% for the current quarter, up 19.33% for one year, and – 7.81% since inception. He noted several factors driving performance such as outperformance of small cap stocks not held in the portfolio, and strong performance of high-risk stocks not held in the portfolio. Technology and cyclical stocks led the market and consumer stocks and healthcare were left behind. Multi-national stocks were impacted by the weakness of the US dollar. They expect no changes in style, but will have a greater focus on fundamentals going forward.

Investment Manager Review – Putnam Investments (“Putnam”). Mr. Bensur gave a brief overview noting that Putnam was retained in 2001 to provide a strategic allocation to non-US or international equity markets. As of September 30, 2003, the portfolio’s market value was \$651.1 million, representing 50.3% of the non-US equity composite and 11.9% of the total fund.

Mr. Jeffrey L. Gould, Managing Director and Mr. Andrew R. Barker, Senior Vice President and Portfolio Manager represented Putnam. Mr. Gould stated that Putnam had recently been subpoenaed by the Secretary of State of Massachusetts regarding mutual fund activities. This is related to the defined contribution plan and market timing by plan participants. Mr. Gould asserted it has nothing to do with late day trading or outside arrangements regarding trading. Putnam vigorously denies the charges and has completed internal reviews and provided all information to the Secretary of State. According to Mr. Gould, no wrongdoing has been found. The Treasurer asked that Putnam continue to keep the Commission apprised of the situation. The Treasurer also indicated that Treasury Staff would continue to monitor the situation.

Mr. Barker noted that Putnam's style is a long-term, team-based approach. With stock prices fluctuating significantly, Putnam believes the underlying worth of a stock is based on a company's long-term profitability (return on capital) and growth potential. Their competitive edge lies in their ability to attach a hard valuation number to each company, which has no pre-determined growth or value bias.

Performance was positively impacted by market selection: overweight to Brazil; underweights to the Netherlands and the UK. The negative impact was from stock selection in Japan, Switzerland and France. In the sector allocations, an underweight in utilities was a positive factor. Negative factors were an overweight in consumer staples; and an underweight in financials, capital goods and technology.

The Treasurer and Mr. Bensur reminded the Commission that BIAM and Putnam were hired to compliment each other over the long-haul and that markets can change rapidly. While the relative underperformance of these portfolios is disappointing, the RIERS international portfolio is up a healthy 13.9% for the nine months ended 9/30/03.

Proposed Alternative Investment – First Reserve Fund X, L.P. ("First Reserve"). Ms. Tara Blackburn stated that the fund is being raised to make privately negotiated equity and equity-related investments in a diversified portfolio of energy companies. First Reserve will focus on the following: oil field services, equipment manufacturing, transportation and marketing of natural gas, crude oil and refined petroleum products, production and marketing of coal to utilities and industrial users, and power. The majority of the fund's investments are expected to be concentrated in the services and equipment manufacturing sectors with a focus on natural gas.

Mr. Ben A. Guill, President and Ms. Cathleen Ellsworth, Marketing Partner represented First Reserve. Ms. Ellsworth noted that the Commission has successfully invested in two previous First Reserve Funds – Fund VIII and Fund IX. Founded in 1980, First Reserve was the first and is the largest private equity firm to pursue this investment strategy. Realized investments from all First Reserve funds have an IRR of 33%. The investment rate has averaged over \$360 million per year since 1999, and distributions have averaged over \$270 million per year since 1997.

Mr. Guill reported that 44% of the portfolio is in oilfield service; 34% in energy infrastructure and power; and 22% in energy reserves (gas, oil, and coal). He noted that there are rapidly growing requirements for infrastructure in emerging markets such as China and Southeast Asia. First Reserve prefers the service and manufacturing companies with recurring revenues. They focus on businesses that are driven by energy demand and benefit from emerging trends of: outsourcing, replacement or repair of aging infrastructure and emerging market demand.

Mr. Thorsen moved, Mr. Costello seconded and the following motion was passed unanimously. The following members voted in favor: Mr. Costello, Sen. DaPonte, Ms. Gallogly, Dr. McKenna, Ms. Reback, Mr. Thorsen, Mr. Whitty, and Treasurer Tavares.

VOTED: To invest up to \$20 million in First Reserve Fund X, L.P. contingent upon satisfactory review and negotiation of investment and other legal documents.

Pacific Corporate Group – Semi-Annual Review. Ms. Blackburn noted that of the 7.5% of the fund designated for alternative investments, 5.8% has been funded so far. The private equity portfolio's IRR is relatively stable at approximately 12%. She reviewed portfolio highlights noting that First Reserve Fund VIII has increased its value by 17.1%; Welsh, Carson, Anderson & Stowe VII has increased it's IRR to 16.8%; and Providence Equity Partners III has distributed proceeds totaling approximately \$67 million.

Ms. Blackburn noted that 2003 target commitments are \$75-\$90 million. There are three potential new investments to be brought before the Commission at the December, 2003 meeting. They are: TPG Partners IV, W Capital and Leapfrog Ventures II. She noted that venture capital investing increased during the second quarter of 2003 for the first time in two years. She then noted approximately seven funds that are coming to the market in 2004.

Short-Term Investments – Citizens' Premium Investment Product (“PIP”). Ms. Caine invited Mr. Corsino Delgado, Cash Manager to join the meeting. She reminded Commission members that along with being responsible for management of the pension fund, the SIC is also responsible for the management of the short-term operating cash of the State. The average short-term balance is approximately \$200 million invested in very high quality, highly liquid securities. Fleet Bank and Citizens Bank hold the bulk of the bank operating accounts. She noted that Citizens has a new bank account that earns interest, which our other bank accounts do not. She would like to reclassify the Citizens' bank account as a short-term investment product because it earns interest and it is easier to track interest earnings on the short-term investments system.

The current rate offered on the PIP is 1.30%, which is approximately 40 basis points above average daily rates. The account was developed to assist municipalities in meeting their investment objectives and regulatory requirements. It is a checking account without check-writing privileges.

Mr. Delgado noted that the funds are liquid and can be withdrawn and deposited as needed, even daily. The recommended maximum exposure guidelines for this collateralized deposit would be 25% of the total short-term portfolio. It is convenient, competitive and safe as it is set up as an interest-bearing deposit, which provides FDIC insurance on balances. Furthermore, balances in excess of \$100,000 are fully collateralized at 102% by Citizens using US Government and Agency Securities. Citizens is currently rated Aa2 by Moody's and A-1+ by S&P. There are no fees. Treasurer Tavares noted that the funds remain in Rhode Island and contribute to the economic development within the state.

Ms. Reback moved, Mr. Thorsen seconded and the following motion was passed unanimously. The following members voted in favor: Mr. Costello, Sen. DaPonte, Ms. Gallogly, Dr. McKenna, Ms. Reback, Mr. Thorsen, Mr. Whitty, and Treasurer Tavares.

VOTED: To approve short-term investment of up to 25% of the total short-term portfolio in Citizens' Premium Investment Product.

Brown Rudnick Berlack Israels, LLP Contract. Treasurer Tavares noted that the contract for legal counsel has expired and a new one has been negotiated. In the contract, the retainer will remain the same at \$3,500 per month. Legal fees charged by the firm for matters outside the scope of services, such as private equity deals and real estate investments, shall not exceed the amount of \$2,500 per transaction unless the firm has provided an estimate of the fees to the staff and said estimate has been approved by the staff.

Mr. Thorsen moved, Dr. McKenna seconded and the following motion was passed unanimously. The following members voted in favor: Mr. Costello, Sen. DaPonte, Ms. Gallogly, Dr. McKenna, Ms. Reback, Mr. Thorsen, Mr. Whitty, and Treasurer Tavares.

VOTED: To confirm the engagement of Brown, Rudnick Berlack Israels, LLP to serve as General Counsel to the State Investment Commission for a period of one (1) year ending November 1, 2004.

The terms and conditions of the engagement will remain the same as those contained in the original letter of engagement dated August 25, 1999. This consists of a \$3,500.00 per month retainer for the firm to handle the day to day issues that arise during the course of the month.

Legal fees charged by the firm for matters outside the scope of services, such as private equity deals and real estate investments, shall not exceed the amount of \$2,500.00 per transaction unless the firm has provided an estimate of the fees to the staff and said estimate has been approved by the staff.

Wilshire Associates Incorporated – Capital Market Review. Mr. Bensur distributed his Capital Market Review and noted that the economy shows signs of recovery with some evidence of corporate earnings improving. He stated that US equity markets are up approximately 23% year-to-date. Smaller stocks have outperformed larger stocks by 2:1. Year-to-date through 10/17/03, international stocks are up 29% and emerging markets up 44%. Fixed income is up 2.5%. 2003 has been a strong equity year.

With reference to the mutual fund trading activity he reported on last month, Mr. Bensur noted that Wilshire is not the subject of any investigation or subpoena. He stated that every 2-3 years, the Securities and Exchange Commission routinely does an examination of Wilshire's operations and procedures. In their examination conducted this month, they have found no wrong-doing and an exit interview has been scheduled. Wilshire believes they have been wrongly associated with the mutual fund trading activity and would like to clear their name.

Therefore, Wilshire retained Kirkpatrick & Lockhart, LLP as an independent external counsel with experience in these matters, to perform an independent examination into issues raised by the current regulatory inquiries regarding mutual fund market timing practices and related matters. Mr. Bensur then distributed a letter from Kirkpatrick & Lockhart, LLP to the Chairman of Wilshire Associates addressing this issue.

Deputy Treasurer for Finance Report. Ms. Caine reported that \$90 million will be re-allocated from small cap managers. The transition is approximately 40% complete to get back to target allocations. Ms. Caine noted that year-to-date the fund has returned 14.9%, which is 75 basis points ahead of the benchmark. For the fiscal year, the fund is about 61 basis points ahead of the benchmark.

The Treasurer reminded Commission members that the next meeting will be held on Wednesday, December 3, 2003 at 9:00 a.m.

Dr. McKenna moved, Ms. Gallogly seconded and the following motion was passed unanimously. The following members voted in favor: Mr. Costello, Sen. DaPonte, Ms. Gallogly, Dr. McKenna, Ms. Reback, Mr. Thorsen, Mr. Whitty, and Treasurer Tavares.

VOTED: To adjourn the meeting.

There being no further business, the meeting was adjourned at 11:20 a.m.

Respectfully submitted,

STATE INVESTMENT COMMISSION

Special Meeting October 31, 2003

A Special Meeting of the State Investment Commission was held in Room 135, State House, Providence Rhode Island on Friday, October 31, 2003. There being a quorum present, the Treasurer called the meeting to order at 9:10 a.m.

Membership Roll Call. Present were: Mr. J. Michael Costello, Senator Daniel DaPonte, Ms. Rosemary Booth Gallogly, Mr. William J. Whitty, and General Treasurer Paul J. Tavares. Also present were: Ms. Joan M. Caine, Deputy Treasurer for Finance, M. George Carvalho, Esq., Chief of Staff, and other members of the Treasurer's Staff. Mr. William G. Bensur, of Wilshire Associates Incorporated, Consultant to the Commission was conferred in by telephone. Absent were: Dr. Robert J. McKenna, Ms. Marcia Reback, and Mr. James E. Thorsen.

Treasurer Tavares thanked Commission members for their attendance on such short notice of a meeting.

Putnam Investments ("Putnam") – International Portfolio. Treasurer Tavares gave a brief overview of the events leading up to today's meeting. First he reminded Commission members that Mr. Jeffrey Gould and Mr. Andrew Barker of Putnam Investments had appeared before the Commission on October 22nd. At that meeting they aggressively denied all charges against Putnam that had appeared in the Boston Globe on Tuesday, October 21st regarding three 401(k) clients who engaged in time zone trades in non-US equity mutual funds dating back to 2000.

On Friday, October 24th, Putnam informed the Treasurer's office of two stories published in the Wall Street Journal and the Boston Globe. The two articles named Omid Kamshad (CIO of International Equities), Justin Scott (CIO of Domestic Growth products and formerly on the International Team), Carmel Peters (EM Portfolio Manager) and Geir Lode (Global Quantitative Team) as four Putnam portfolio managers who engaged in time zone trading for their own account. On Friday, October 24th, Putnam terminated the four investment professionals named in the article.

Treasurer Tavares then reported that he was in immediate contact with Wilshire Associates Incorporated ("Wilshire") and Putnam. He was told by Putnam that this improper trading activity was identified as taking place in 2000. Putnam responded at that time, that corrective action had taken place and this form of trading ceased. Later, Putnam admitted that additional time zone trades continued to take place on an infrequent basis up to 2003.

On Monday, October 27th, staff spoke with Mr. Bensur of Wilshire to discuss what impact the firings had on the RI portfolio. Wilshire issued a Manager Research Memorandum to clients that indicated more due diligence was required. However, it was Wilshire's preliminary opinion that any due diligence efforts will likely result in a recommendation to initiate a search to replace the Putnam non-US equity products.

A conference call was held with the Treasurer, Mr. Bensur, Ms. Caine, Mr. Carvalho, and executives from Putnam. Also on October 27th, the Treasurer received a letter from Putnam President, Lawrence Lasser. On Tuesday, October 28th, the Treasurer decided it was necessary to

call a special meeting of the State Investment Commission to discuss Putnam as Omid Kamshad, one of the fired employees, was the key investment professional on the State's portfolio.

Treasurer Tavares stated that three factors are considered when hiring at an investment firm: 1) performance; 2) strength of the investment team; and 3) faith and confidence in the firm. At this time he recommended terminating Putnam because of the firm's failure in these three areas. He distributed to Commission members copies of a letter from Putnam's President, Lawrence J. Lasser, dated October 27th apologizing and defining their position.

Mr. Bensur noted that Wilshire felt that the termination of the Putnam managers had compromised the international product in which the RIERS is invested. Wilshire's position is clear that going forward this product is damaged and he recommended terminating the relationship, as well, effective immediately. He further recommended that the process of finding an alternative provider for this type of product begin.

Ms. Caine noted that it was important to keep the fund's exposure to the international mandate. She stated that her recommendation, and that of Wilshire, would be to temporarily invest the assets in an ACWI index through State Street Global Advisors as they are a very large index asset manager with which the Commission already has a relationship. She recommended the funds be placed there until such time that another active non-US Equity Manager is selected by the State Investment Commission through the Request for Proposals process.

The Treasurer reminded Commission members that Putnam was hired in 2001 and that a search could be expedited to find a new manager.

Senator DaPonte moved, Mr. Costello seconded and the following motion was passed unanimously. The following members voted in favor: Senator DaPonte, Mr. Costello, Ms. Gallogly, Mr. Whitty and Treasurer Tavares.

VOTED: To terminate the investment management contract with Putnam Investments and to transition and temporarily invest the portfolio of assets in a MSCI All Country World Index (ACWI) with State Street Global Advisors. The assets will remain invested in the ACWI Index Fund until such time that another active non-US Equity Manager is selected by the State Investment Commission through the Request for Proposals process.

Ms. Gallogly moved, Sen. DaPonte seconded and the following motion was passed unanimously. The following members voted in favor: Senator DaPonte, Mr. Costello, Ms. Gallogly, Mr. Whitty and Treasurer Tavares.

VOTED: To adjourn the meeting.

There being no further business, the meeting was adjourned at 9:15 a.m.

Respectfully submitted,

Paul J. Tavares

The fund inception date indicates the inception date of the underlying investment portfolio, which may precede the portfolio's inclusion in the product. (+) The current yield more closely reflects current earnings.

An investment in ING VP Money Market Portfolio is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The fund is a money market fund which does not seek to maintain a stable \$1.00 net asset value. While the fund's investment objective includes the preservation of capital, it is possible to lose money by investing in the fund.

*** This investment option is not a mutual fund, but an investment option providing rates of return declared in advance. It is offered through ING Life Insurance Company and ING Life Insurance and Reinvestment of all dividends (ordinary income and capital gains) and are net of management fees and other fund operating expenses.

* Returns for less than 1 year are not annualized.

Annuity Company.

The returns listed do not include the impact of contract charges.

The CURRENT rate for the ING Fixed Account - 4574/01 - is 4.600%, expressed as an annual effective yield, and is guaranteed not to drop below 4.60% through 12/31/2003. The annual rate of interest applied to your account may be higher or lower than the current rate. Restrictions apply to transfers of funds from the Fixed Account to other contract investment options. Please refer to your product prospectus / disclosure booklet and call your 800 number for more information. The chart shows the performance for each investment option for the time periods shown. The returns assume reinvestment of all dividends (ordinary income and capital gains) and are net of management fees and other fund operating expenses.

Please note, the three digit number which appears next to each investment option is the fund number as assigned by ING.

ING MFS Research Portfolio - Initial Class was renamed ING MFS Research Equity Portfolio - Initial Class as of 5/1/03. ING MFS Research Portfolio - Initial Class was renamed ING MFS Research Equity Portfolio - Initial Class as of 5/1/03.

Janus Aspen Series Aggressive Growth Portfolio - Instl Shares was renamed Janus Aspen Series Mid Cap Growth Portfolio - Instl Shares as of 5/1/03. Fund prospectuses, containing more complete information regarding charges and expenses, are available by calling 1-800-584-6001. Please read them carefully before investing. The risks of investing in small company stocks may include relatively low trading volumes, a greater degree of change in earnings and greater short-term volatility.

Foreign investing involves special risks such as currency fluctuation and political risks.

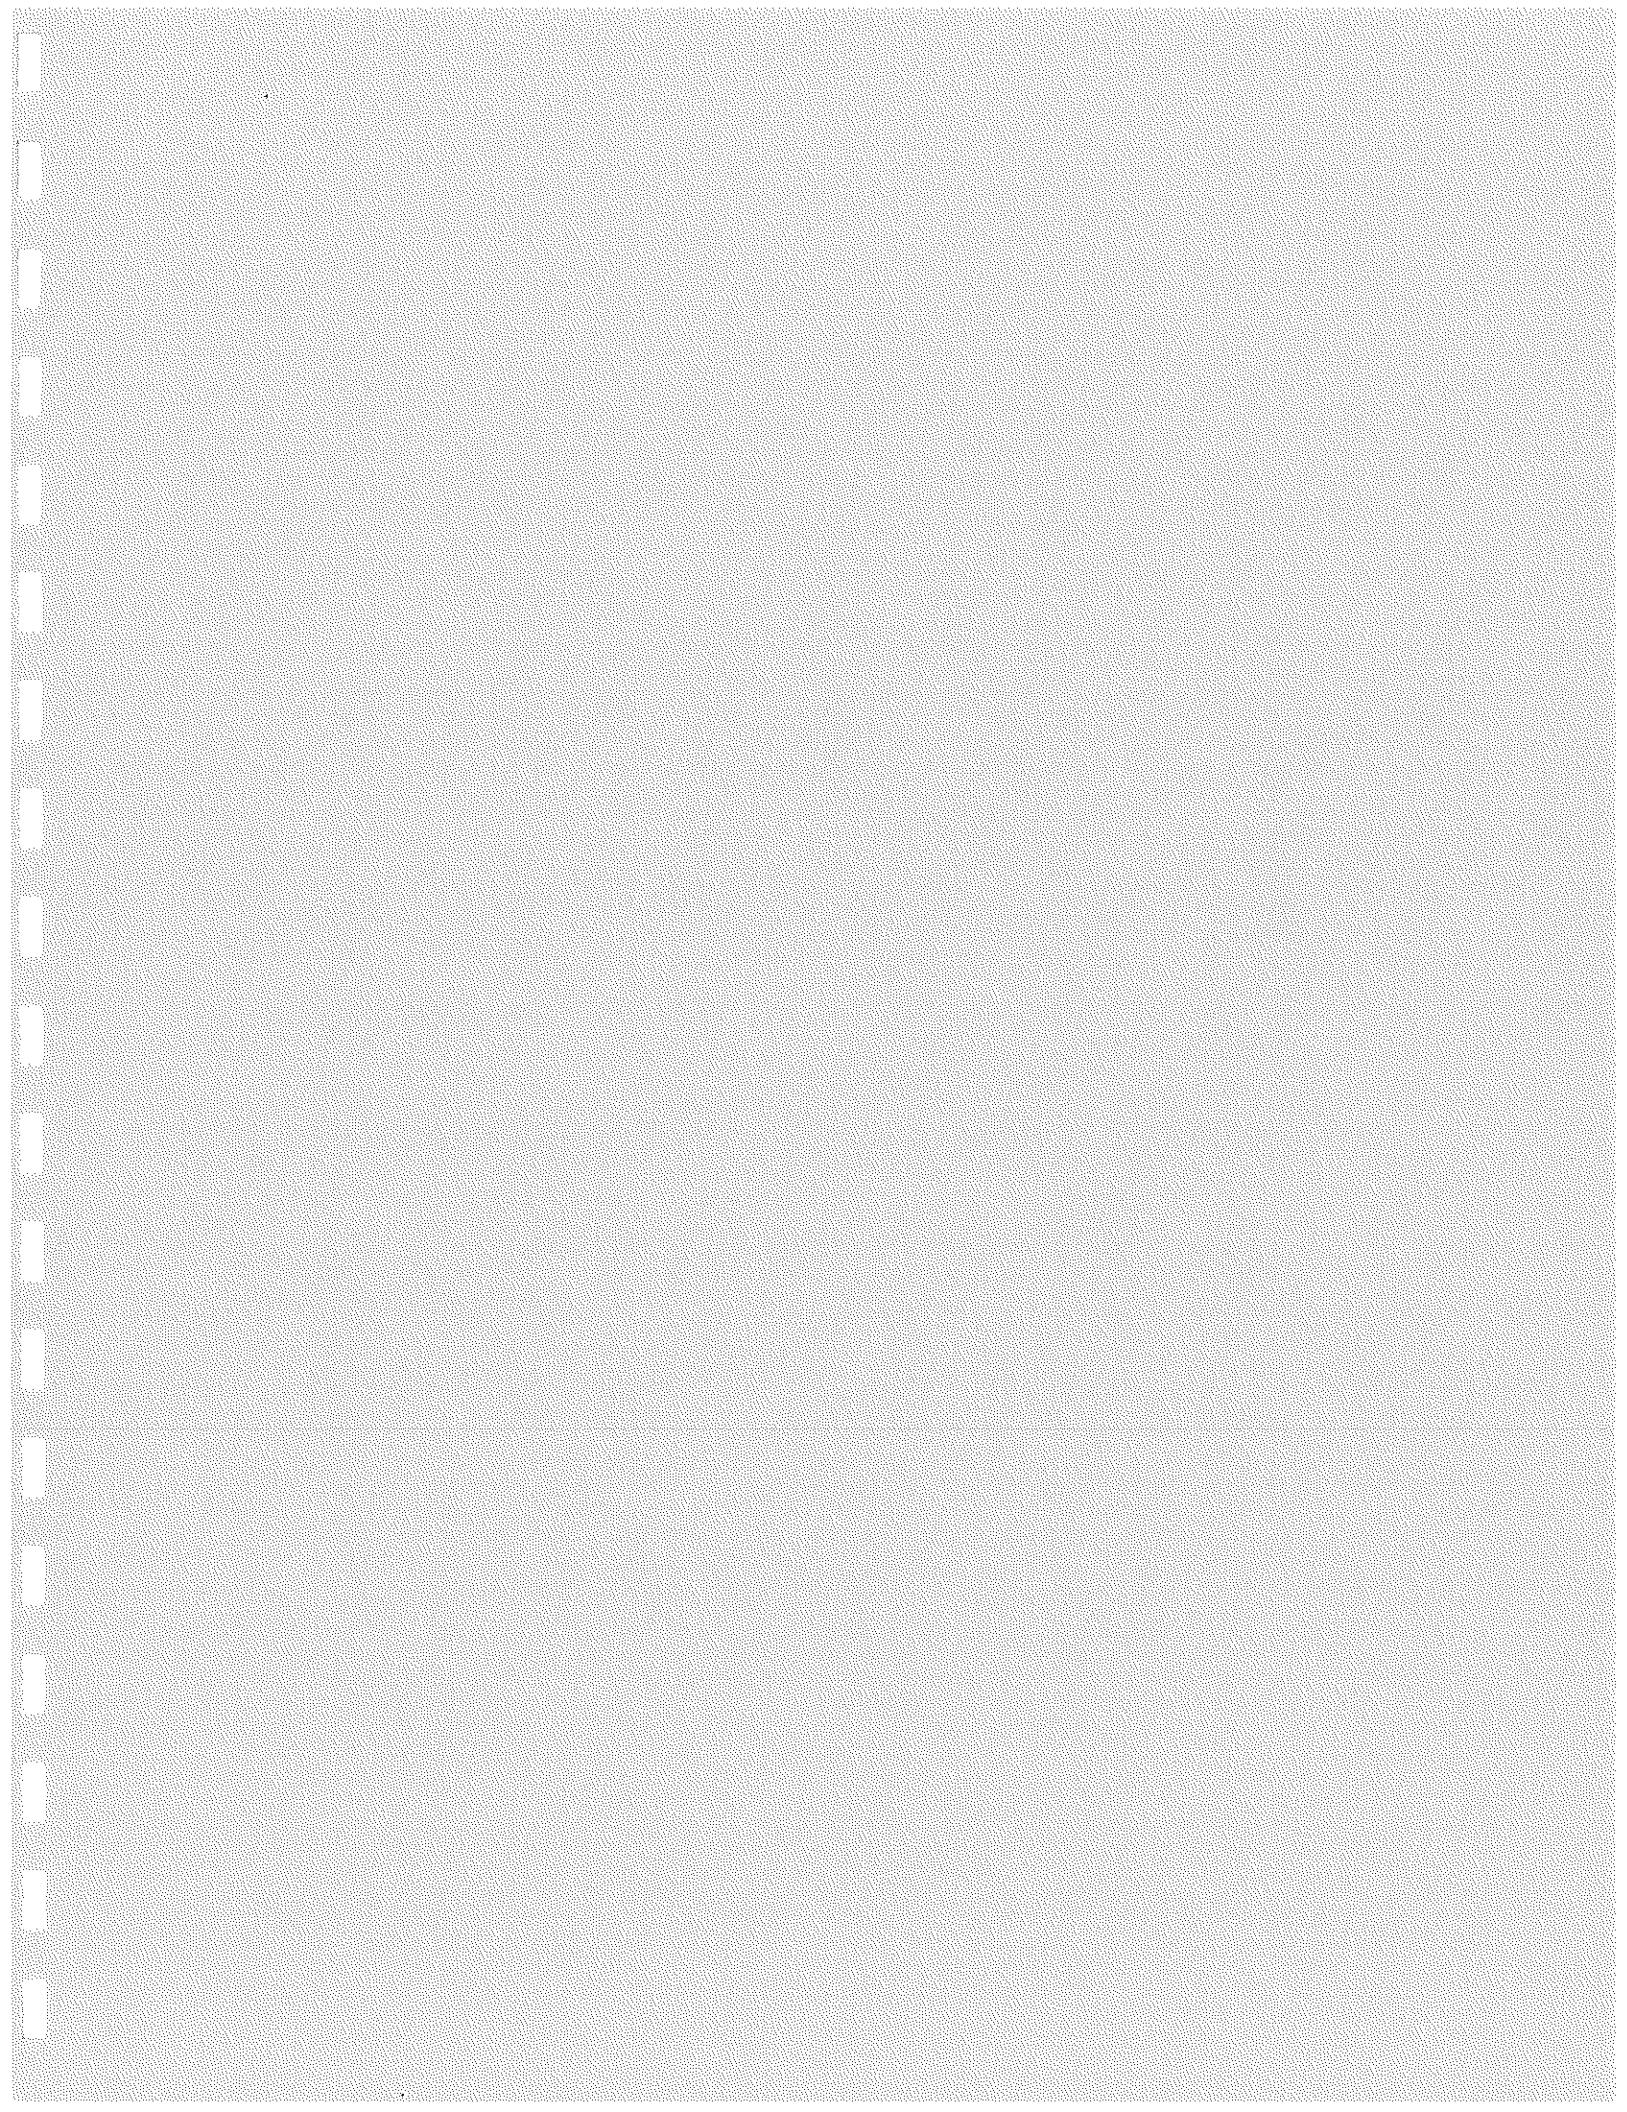

Some of the Funds invest in securities guaranteed by the U.S. Government as to the timely payment of principal and interest; however, shares of the Funds are not insured nor guaranteed. High yielding fixed-income securities generally are subject to greater market fluctuations and risk of loss of income and principal than are investments in lower yielding fixed-income securities.

The principal risks of investing in technology funds are those generally attributed to stock investing. Stocks of smaller companies tend to be less liquid, more volatile and sensitive to expected changes in interest rates. Because the Fund's investments are concentrated in information technology industries, the value of its shares will be especially affected by factors peculiar to those industries and may fluctuate more widely than the value of shares of more diversified portfolios.

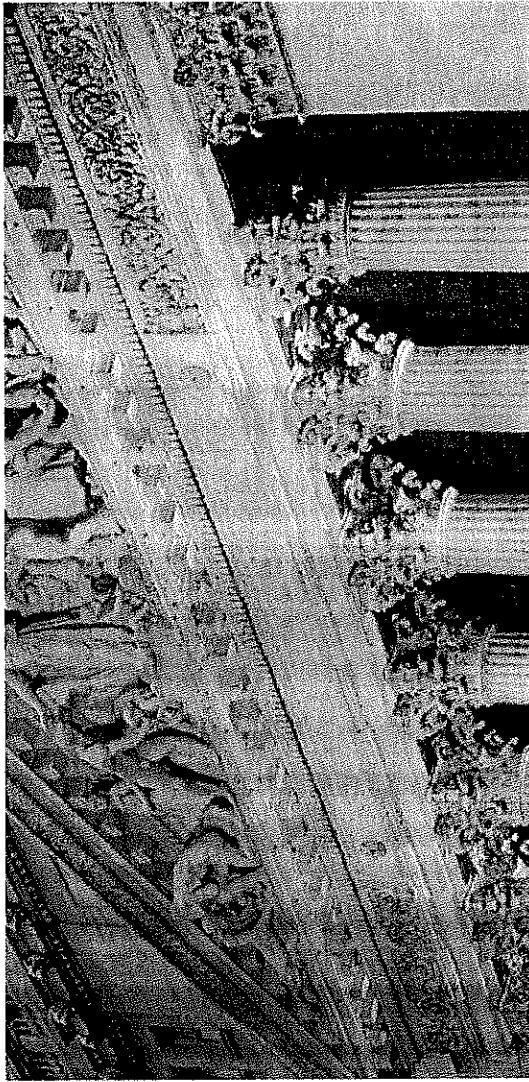

Insurance products and/or third party administration services are offered by ING Life Insurance and Annuity Company. Securities offered through ING Financial Advisers, LLC (member SIPC) or other broker-dealers with which it has a selling agreement.

Performance Update

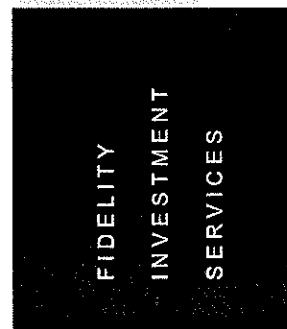

Benchmark Id	Benchmark Description
BCM	The Money Fund Report Averages™ - All Taxable is an average of the returns of over 250 money market mutual funds surveyed each month by IBC/Dongoghue, Inc.
LEHM	The Lehman Brothers Aggregate Bond Index is an unmanaged index composed of securities from the Lehman Brothers Government/Corporate Bond Index, Mortgage-Backed Securities Index, and the Asset-Backed Securities Index, including securities that are of investment-grade quality or better and have at least one year to maturity.
MFR	Returns are based upon historical average 30-day compound yields on a universe of taxable money market funds. The data for the universe, which includes approximately 380 funds, is compiled by Monaynet, Inc. Goal of ING Fixed Account - 457/401 is to outperform the MFR by 150 - 200 basis points over 3 - 5 year time periods.
MSDUEAFE	Morgan Stanley Capital International Europe, Australia, Far East Index is a market value-weighted average of the performance of more than 900 securities listed on the stock exchanges of countries in Europe, Australia and the Far East. The MSCI EAFE returns assume reinvestment of all dividends.
MSDUWIC	The MSCI World Index (an equity index calculated by Morgan Stanley Capital International) is a market value-weighted average of the performance of more than 1,460 securities listed on the stock exchanges of the developed nations of the world. The MSCI World Index returns assume reinvestment of all dividends.
RS2000	The Russell 2000 Index (a small cap index) consists of the smallest 2,000 companies in the Russell 3000 Index and represents approximately 10% of the Russell 3000 total market capitalization. The Russell 2000 returns assume reinvestment of all dividends.
RS3000G	The Russell 3000 Growth Index measures the performance of those Russell 3000 companies with higher price-to-book ratios and higher forecasted growth values. The stocks in this index are also members of either the Russell 1000 Growth or the Russell 2000 Growth indexes.
RS3000V	The Russell 3000 Value Index is a market capitalization-weighted index of value-oriented stocks of U.S. domiciled corporations.
SPX	A benchmark consisting of a mix of 60% of an unmanaged stock index (The Standard & Poor's 500) and 40% of an unmanaged bond index (Lehman Aggregate Bond Index).

Past performance does not guarantee future results. The investment return and principle value will fluctuate, so an investor's shares, when redeemed, may be worth more or less than their original cost. For more complete information about these mutual funds, including charges and expenses, call 1-888-568-2542 for a prospectus. Please read the prospectus carefully before investing or sending money. Mutual funds are offered through American General Financial Advisors, member NASD/SIPC.

For more complete information about the mutual funds and services, including charges and expenses, please call 1-888-568-2542 for a prospectus kit. Please read the prospectus carefully before investing or sending money. Securities and investment advisory services are offered through VALIC Financial Advisors Inc., member NASD/SIPC.

International fund unit values and returns will fluctuate with market conditions, currencies, and economic climates where investments are made. Higher potential return generally involves greater risk, and short-term volatility is not uncommon when investing in various types of funds, including but not limited to: sector funds, emerging market funds and small & mid-cap funds.

Risks for emerging markets include, for instance, risks relating to the relatively smaller size and lesser liquidity of these markets, high inflation rates and adverse political developments. Risks for smaller companies include for instance, business risks, significant stock price fluctuations and illiquidity. Government securities offer a high degree of safety and are guaranteed as to the timely payment of principal and interest if held to maturity. Fund shares are not insured and their value and yield will vary with market conditions. Investing in higher-yielding, lower rated bonds has a greater risk of price fluctuation and loss of principal and income than U.S. government securities, such as U.S. Treasury bonds and bills. Treasuries are guaranteed by the government for repayment of principal and interest if held to maturity. Investors should carefully assess the risk associated with an investment in the Fund.

An investment in a money market fund is not insured by the Federal Deposit Insurance Corporation (FDIC) or any other government agency. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it is possible to lose money by investing in the Fund.

For periods prior to inception of Class I shares (11/16/2001), performance is based on the past performance of Class A shares, adjusted to reflect that there are no sales charges paid by Class I shares. The Class A shares do not show the effect of operating expenses currently applicable to I shares. Effective 11/19/2001, SunAmerica Asset Management Corp. assumed management responsibilities.

Performance data does not include plan annual administrative charges of 0.27%. Plan administrative charges do not apply to the VALIC Fixed-Interest Option.

** Performance figure not available due to the inception date of the fund.

*** A VALIC(The Variable Annuity Life Insurance Company Houston, Texas) fixed annuity applicable to policy form GFUA-398.

**** VALIC declares a portfolio interest rate monthly for the Fixed-Interest Option. That declared portfolio interest rate is guaranteed until the end of that month and is credited to all new and old deposits as well as credited interest. The contractual lifetime minimum guaranteed interest rate is 3%; however, VALIC guarantees -- for calendar year 2002 -- a minimum portfolio interest rate of 5.00%. All interest is compounded daily at the declared annual effective rate. VALIC's interest-crediting policy is subject to change, but any changes will not reduce the current rate below the contractually guaranteed minimum or money already credited to the account.

Securities and investment advisory services are offered through VALIC Financial Advisors, Inc., member NASD/SIPC

AIG VALIC, a member of American International Group, Inc., is the marketing name for the family of companies comprising VALIC Retirement Services Company; VALIC Financial Advisors, Inc.; VALIC Trust Company; and the Variable Annuity Life Insurance Company (VALIC).
