Office of the General Treasurer**

Paul J. Tavares
General Treasurer

**RHODE ISLAND STATE INVESTMENT COMMISSION
MEETING NOTICE**

The next meeting of the Rhode Island State Investment Commission has been scheduled for Wednesday, February 25, 2004 at 9:00 a.m. in Room 135 of the State House.

AGENDA

1. Membership Roll Call
2. Approval of Minutes
 - State Investment Commission Meeting held on 1/28/04 *
3. Alternative Investment *
 - Proposed Investment – Leapfrog Ventures II, L.P.
4. Investment Manager Interviews
 - Delaware International Advisers Ltd.
 - Goldman Sachs Asset Management LP
 - The Boston Company Asset Management, LLC
5. CollegeBoundfund Update – Alliance Capital
6. Columbia Management Co. – Update *
7. General Consultant's Report – Wilshire Associates Incorporated
 - Capital Market Update
8. Legal Counsel Report
9. Deputy Treasurer for Finance Report
10. Treasurer's Report
11. New Business

* Commission members may be asked to vote on this item.

POSTED ON THURSDAY, FEBRUARY 19, 2004

**State of Rhode Island and Providence Plantations
STATE INVESTMENT COMMISSION**

Regular Meeting January 28, 2004

A State Investment Commission meeting was held in Room 135, State House, Providence, Rhode Island on Wednesday, January 28, 2004. There being a quorum present, the Treasurer called the meeting to order at 9:10 a.m.

Membership Roll Call. Present were: Mr. J. Michael Costello, Ms. Rosemary Booth Gallogly, Mr. James E. Thorsen, Mr. William J. Whitty and General Treasurer Paul J. Tavares. Senator Daniel DaPonte joined the meeting at 9:20 a.m. Also present were: Mr. George Carvalho, Chief of Staff, Ms. Joan M. Caine, Deputy Treasurer for Finance, Mr. William G. Bensur, Jr. and Mr. David Lindberg, of Wilshire Associates Incorporated, Consultant to the Commission, Jayne Donegan, Esq. of Brown Rudnick Berlack Israels, Legal Counsel to the Commission, and other member of the Treasurer's Staff. Ms. Marcia Reback and Dr. Robert J. McKenna were absent.

State Investment Commission Minutes. Mr. Costello moved, Mr. Thorsen seconded and the following motion was passed unanimously. The following members voted in favor: Mr. Costello, Ms. Gallogly, Mr. Thorsen, Mr. Whitty, and Treasurer Tavares. (Note: Sen. DaPonte was not present for this vote.)

VOTED: To approve the Minutes of the December 3, 2003 Regular Meeting.

Investment Manager Review – Brown Brothers Harriman & Co. (“BBH”). Mr. Lindberg gave a brief overview noting that BBH was retained in 1989 to provide a strategic exposure to the general investment characteristics of the broad US fixed income market. As of 12/31/03, the BBH portfolio represented approximately 12.3% of the fixed income composite and approximately 2.7% of the total fund. The market value as of 12/31/03 was \$165 million.

Mr. Jeffrey A. Schoenfeld, Partner, Mr. Glenn E. Baker, Partner and Mr. John P. Nelson, Managing Director represented BBH. Mr. Baker explained that BBH manages an active core fixed income portfolio. He noted that credit oriented sectors of the market delivered significant excess return during 2003. A return to risk-taking among market participants, combined with improving credit fundamentals, led lower-rated credits to outperform higher-rated credits. The mortgage-backed sector was the worst-performing sector of the investment grade market in 2003.

Mr. Baker stated that the investment grade corporate index was the top-performing component of the investment grade market in 2003. Lower rated sub-sectors of the corporate market significantly outperformed higher quality sub-sectors in all 12 months of the year. Gross of fees, the portfolio returned 7.05% in 2003 versus the benchmark’s return of 4.20%. BBH used Treasury Inflation-Indexed Securities throughout the year, which added approximately 8 basis points of performance for the year.

Mr. Schoenfeld noted that an additional \$20 million cash inflow was expected today as part of a rebalancing which would bring the fund total to approximately \$185 million.

Inflation-Indexed Securities Presentation – Brown Brothers Harriman & Co. (“BBH”). Mr. Nelson explained that TIPS are Treasury Inflation Protected Securities that are growing

rapidly. He noted that TIPS are a unique, distinct asset class. Every asset class has a distinct set of key properties: expected return; volatility of return; and correlation to other asset classes. All else being equal, investors prefer asset class combinations that maximize expected return, have low volatility, and have low correlation to other asset classes. The 10-year TIPS has had approximately half of the volatility of the 10-year US Treasury Note, as measured by monthly total returns. The inclusion of TIPS in an overall asset allocation allows for higher returns for a given level of risk or lower risk for a given level of return.

The benefits are that the US Treasury assures the investor that TIPS will be essentially insulated from inflationary consequences of anticipated oil price shocks, trade disruption, crop failures, and the like. The real return is fixed in advance and there is a higher correlation to inflation than real estate, commodities or most other real assets. There is no credit risk, assets are protected from inflation and the correlation with other financial assets is low or negative.

Mr. Nelson noted that the market value of TIPS outstanding now exceeds \$191 billion with \$40-\$60 billion of new supply expected in the next year. TIPS now represent 8% of the total (\$2.3 trillion) Treasury note and bond market and almost 6% of overall (\$3.3 trillion) Treasury debt outstanding. BBH has been involved with TIPS for 8-9 years and currently manages over \$1.5 billion in TIPS mandates. TIPS are more fully valued and are considered a portfolio tool, not a timing device. He stated that the BBH inflation-indexed securities composite has outperformed the market index, gross of fees, in 68 out of 70 rolling 12-month periods since inception.

Mr. Bensur noted that because TIPS are fairly new, an opportunity exists to extract extra returns. The Treasurer stated that Ms. Caine and Mr. Bensur would develop a strategy and present their recommendations for a TIPS allocation in the fund to the Commission for consideration.

Investment Manager Review – Columbia Management Co. (“Columbia”) Mr. Lindberg gave a brief overview noting that Columbia (formerly Fleet Investment Advisors) was retained in 1983 to provide a strategic allocation to the government and credit segment of the fixed income market. Columbia is expected to manage the portfolio in an active manner and to add value, net of management fees, relative to the returns that could be achieved through a passive exposure to this market segment. As of 12/31/03, the portfolio represented approximately 30.1% of the fixed income composite and approximately 6.6% of the total fund. The market value as of 12/31/03 was \$404 million.

Mr. Roger Begin, Director, Ms. Marie Schofield, Managing Director (Portfolio Manager), Ms. Brenda Furlong, Managing Director (Head of Fixed Income), Ms. Lauren Mogensen, Deputy General Counsel, and Mr. Thomas Fay, Managing Director represented Columbia. Ms. Schofield noted that Columbia has over \$4 billion in institutional assets. Columbia strategically manages duration, yield curve and sector exposure with a top-down investment approach.

Ms. Schofield noted that 2003 was the best year on record for credit, with risk premiums rallying 80 basis points and ending at the tightest level since mid-1998. Triple-B credits returned almost 12% and 7% more than double-A rated issuers. Long corporate paper (30-year) was also a significant contributor. High quality did not fare well in the 2003 environment. Treasuries and agencies underperformed other sectors, generating a little over 2% for the year. Sectors with the greatest concentrations of lower quality issuers saw the best performance with utilities and the industrial sectors of wireless, media-cable, and autos seeing double-digit excess returns.

She noted that performance for 2003 was 4.52% versus the Lehman Government/Credit Bond Index benchmark's return of 4.68%. Treasury positions were reduced due to the low absolute level of interest rates and relatively unattractive real yields. Government agencies were overweighted as an offset and have slightly outperformed Treasuries. Columbia added to corporate bonds focusing on finance and industrials due to improving fundamentals and added slightly to the utility sector.

Ms. Mogensen noted that Columbia is cooperating with the Securities and Exchange Commission ("SEC") and its investigation into market timing at Columbia and its investment management subsidiaries. Ms. Mogensen assured the Commission that they would keep the Commission apprised of any new developments in the investigation. It was noted that one person left the firm with regard to trading activities but that person was not associated with Rhode Island's portfolio. Mr. Fay stated that the Bank of America acquisition is in the legal phase and is expected to be complete in the second quarter of 2004 and is not expected to have any affect on Columbia's relationship with the Commission.

Alliance Capital ("Alliance") – CollegeBoundfund Update. The Treasurer noted that Alliance has reached a settlement with the SEC and the New York Attorney General. As part of that settlement, Alliance is required to compensate investors, including CollegeBoundfund investors who suffered financial harm as a result of the wrongdoings. He noted that the SEC is working with Alliance to develop a formula for how those payments will be calculated and disbursed.

Additionally, Alliance is required to take a number of steps to protect investors going forward – changes to Mutual Fund Board membership; increased oversight of ethics, compliance and conflict of interest; and submit to independent compliance reviews. The Treasurer distributed a chart on the CollegeBoundfund Fee Reduction Impact noting that the reductions ranged from 3 basis points to 22 basis points and average out to an overall 10 basis point reduction. These reduced rates went into effect on 1/1/04. Monitoring and negotiating with Alliance is ongoing and Alliance is expected to continue to keep the SIC up-to-date on their reforms.

Ms. Caine noted that performance of the CollegeBoundfund is good, especially the value oriented funds. Alliance may add an index fund option for Rhode Island participants, which would be a lower cost option.

Wilshire Associates Incorporated – Capital Market Review. Mr. Bensur stated that the economy shows meaningful signs of recovery and that both the domestic and international equity markets are up. He noted the Nasdaq Index was up 51% in 2003 and 6% so far in 2004. In general the overall US equity market is up 3.5% on a year-to-date basis and was up about 30% last year. In 2003, non-US equity markets outperformed US equity markets by nearly 10% (41% versus 31%).

Deputy Treasurer for Finance Report. Ms. Caine noted that the fund was up 27.3% in 2003, which is the second highest return in the fund's history. In 1985 the fund was up 29.9%. Last year's return exceeded the policy index of 26.7% by 50 basis points. For the fiscal year, the fund is up 15.5%, which is 90 basis points over the policy index. She stressed that while the rally in the capital markets contributed to the performance, the Commission has made several decisions over the last four years to restructure and diversify the portfolio, largely based on Wilshire's recommendations, which contributed greatly to performance.

One of those decisions was to establish a Manager Continuation Policy which provides the Commission with a quantitative tool to review the investment managers and make decisions in a timely fashion as to whether to terminate or continue a relationship. Ms. Caine stated it was critical to continue to attract highly skilled managers and terminate those managers that consistently detract from performance.

Also the fund expanded its active exposure in small stocks from 25% of the US equity portfolio to 30% which positively impacted performance. Small cap stocks (up 47%) have outperformed large cap stocks (up 30%) for the last four years. The best performer was small cap value, which was up 52%. The fund's best performing small cap manager was Wellington Management Co., who was up 62% followed by Columbia at 46% and NorthPointe Capital at 45%. The total equity portfolio posted a 36.5% for 2003.

Another beneficial decision by the Commission was to restructure the high yield portfolio from a convertible/high yield blended portfolio to a pure high yield mandate. The two managers that replaced Loomis Sayles were MacKay Shields and Shenkman Capital Mgmt. MacKay returned 36% for the fund, well above the CSFB High Yield Index return of 27.9%.

Additionally, the fixed income allocation was reduced last year from 27.5% to 25%. With Wilshire's recommendations and the Commission's acting on them, the fund has reignited in the risk and developed a more structured, core portfolio.

The Treasurer thanked Ms. Caine and her staff for their day-to-day work, Wilshire Associates for their counsel and advice and the Commission members for their support and diligence.

Ms. Caine stated that six semi-finalists in the International search have been interviewed and she expects to bring three finalists to the February SIC meeting for the Commission's consideration. Since the portfolio size is approximately \$700 million, it may make sense to hire two managers as opposed to one.

The Treasurer noted that Ms. Caine and Mr. Bensur would develop a recommendation for the Commission in the near future regarding a proposed TIPS allocation.

Ms. Gallogly moved, Mr. Whitty seconded and the following motion was passed unanimously. The following members voted in favor: Mr. Costello, Sen. DaPonte, Ms. Gallogly, Mr. Thorsen, Mr. Whitty, and Treasurer Tavares.

VOTED: To adjourn the meeting.

There being no further business, the meeting was adjourned at 11:43 a.m.

Respectfully submitted,

Paul J. Tavares
General Treasurer

Market Values

The total portfolio value increased in January by \$97.2 million to \$6.188 billion. This compares with a decrease in value of \$107.1 million for the same period in 2003. The domestic equity market values increased by \$21.8 million; fixed income increased by \$134.7 million net of transfers, while international values were down by \$84 million net of transfers. The cash accounts were up \$4.4 million and alternative investments increased in value by \$195,000.

Asset Allocation

The domestic equities portfolio is over-allocated by 2.2%. The fixed income portfolio is under-allocated by 0.8%. The international equity portfolio is over-allocated by 0.3%, while the alternative investment assets are under-allocated by 2.0%. Domestic and international equities targets each include an additional 2.5% for future real estate allocations. Rebalancing of these asset classes is on going.

Cash Flow

January's pension payroll of \$45 million exceeded the \$31.6 million in contributions received by \$13.4 million. To meet this shortfall along with other obligations, \$20 million was transferred from long term investments.

Expenses

Alternative Investments
At this time the alternative investment asset class has unfunded commitments of approximately \$394 million, on commitments of \$753 million.

Performance Update

RS2000	The Russell 2000 Index (a small cap index) consists of the smallest 2,000 companies in the Russell 3000 Index and represents approximately 10% of the Russell 3000 total market capitalization. The Russell 2000 returns assume reinvestment of all dividends.
RS3000G	The Russell 3000 Growth Index measures the performance of those Russell 3000 companies with higher price-to-book ratios and higher forecasted growth values. The stocks in this index are also members of either the Russell 1000 Growth or the Russell 2000 Growth indexes.
RS3000V	The Russell 3000 Value Index is a market capitalization-weighted index of value-oriented stocks of U.S. domiciled corporations.
SPX	A benchmark consisting of a mix of 60% of an unmanaged stock index (The Standard & Poor's 500) and 40% of an unmanaged bond index (Lehman Aggregate Bond Index).
SPXRE	The Standard & Poor's (S&P) 500 Index is considered to be representative of the stock market in general. The S&P 500 returns assume reinvestment of all dividends.

Mutual fund performance changes over time and currently may be significantly lower than stated. Most recent fund performance data is published online at each month end. Please visit www.fidelity.com or call Fidelity for current performance figures.

Past performance is no guarantee of future results. Total returns are historical and include change in share value and reinvestment of dividends and capital gains, if any. Cumulative total returns are reported as of the period indicated. Life of fund figures are reported as of the inception date to the period indicated. The figures do not include the effects of sales charges, if any, as these charges are waived for contributions made through your company's employee benefit plan. If sales charges were included, returns would have been lower. Each investment choice's share/unit price, yield, and return will vary and you may have a gain or a loss when you sell your shares/units.

Fidelity Management & Research Company manages Fidelity mutual funds.

- ▲ The current yield more closely reflects the current earnings of the fund, while total return refers to a specific past holding period.
- * An investment in a money market fund is not insured or guaranteed by the FDIC or by any other government agency. Although money market funds seek to preserve the value of your investment at \$1.00 per share, it is possible to lose money by investing in these funds.
- ▲ The Fidelity Freedom Funds are managed by Strategic Advisers, Inc., a subsidiary of FMR Corp.
- ++ Fidelity is temporarily reimbursing a portion of the fund's expenses. Absent such reimbursement, returns would have been lower.
- The total expense ratio of each of the Fidelity Freedom funds is comprised of the fund's expense ratio of 0.08% and the average weighted expense ratio of the underlying funds in which each Freedom Fund invests. The total expense ratio for Fidelity Freedom Income is 0.67%; Fidelity Freedom 2000 is 0.70%; Fidelity Freedom 2005 is 0.81%; Fidelity Freedom 2010 is 0.81%; Fidelity Freedom 2015 is 0.86%; and Fidelity Freedom 2020 is 0.88%; and Fidelity Freedom 2025 is 0.91%; and Fidelity Freedom 2030 is 0.91%; and Fidelity Freedom 2035 is 0.93%; and Fidelity Freedom 2040 is 0.94%. The average weighted expense ratios may be higher or lower depending on the allocation and the actual expenses of the underlying Fidelity funds.
- ◆◆ There is a 0.75% short-term trading fee on shares held less than 30 days.
- Investments in mid-sized companies may involve greater risks than those of larger, more well-known companies, but may be less volatile than investments in smaller companies.
- ◆ There is a 2.00% short-term trading fee on shares held less than 30 days.
- ** Investments in smaller companies may involve greater risks than those of larger, more well-known companies.
- †† Foreign investments, especially those in emerging markets, involve greater risks and may offer greater potential returns than U.S. investments. These risks include political and economic uncertainties of foreign countries and currency fluctuations. There are additional risks associated with those funds that concentrate their investments in one geographic location.
- ▲▲ There is a 1.00% short-term trading fee on shares held less than 30 days.

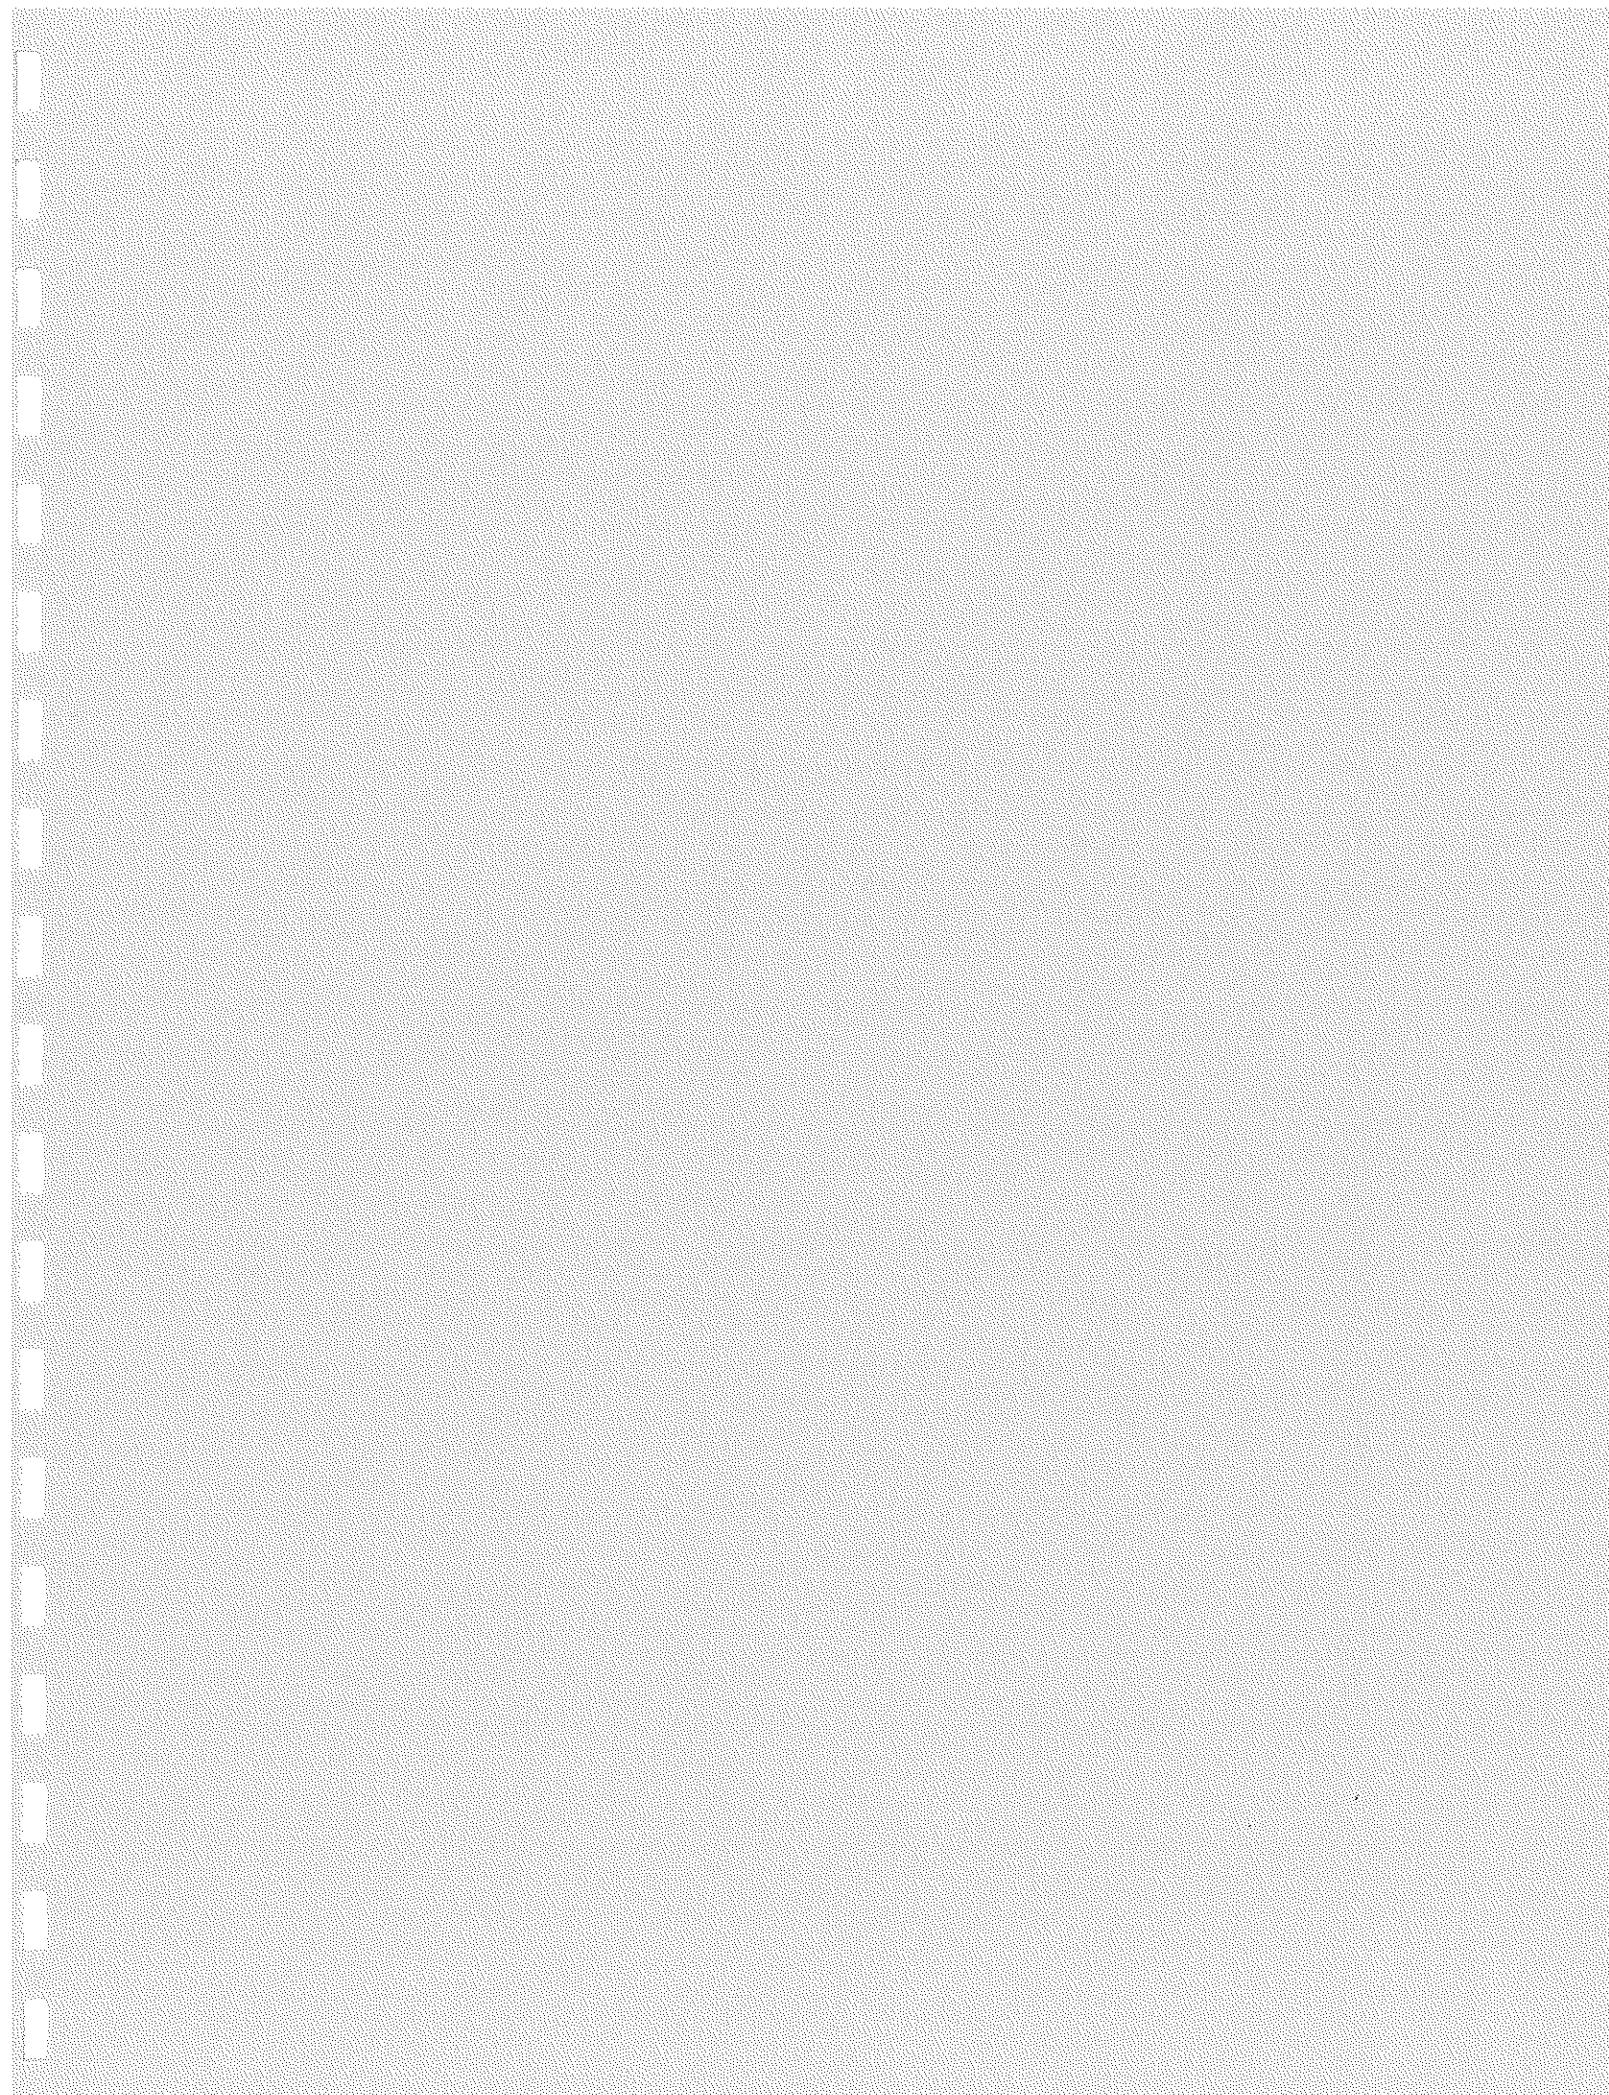

Non-Fidelity mutual funds are managed by non-Fidelity entities. Please consult the prospectus for more information. If applicable, class of shares will vary. Please consult your plan document or enrollment materials for the specific class of shares available through your plan. Performance information for non-Fidelity mutual funds was provided by a third-party. Fidelity Investments Institutional Services Company, Inc., is not affiliated with any of the outside fund companies.

- ^^ The following indices are defined for informational purposes only. All indices are unmanaged and performance of the indices are not illustrative of any particular investment. An investment cannot be made in any index.
- Dow Jones Industrial Average (DJIA)**, published by Dow Jones and Company, is an unmanaged average of 30 actively traded stocks (primarily industrial) and assumes reinvestment of dividends. It is not offered as a comparison for any investment option but rather as a general stock market indicator. **Lehman Brothers Intermediate Government/Credit Bond Index** is an unmanaged, market-value weighted index of government and investment-grade corporate fixed-rate debt issues with maturities between one and ten years. **EAFE® Index (Morgan Stanley Capital International Europe, Australasia, Far East Index)** is an unmanaged index of over 1,000 foreign common stock prices and includes the reinvestment of dividends. The EAFE® Index is a registered service mark of Morgan Stanley and has been licensed for use by FMR Corp. The investment options offered through the plan are neither sponsored by nor affiliated with Morgan Stanley. **The Standard & Poor's 500™ Index (S&P 500®)** is a registered service mark of the McGraw-Hill Companies, Inc., and has been licensed for use by Fidelity Distributors Corporation and its affiliates. It is an unmanaged index of the common stock prices of 500 widely held U.S. stocks.

Although the information contained in this report has been carefully verified, its accuracy cannot be guaranteed. All numbers are unaudited.

Past performance does not guarantee future results. The investment return and principle value will fluctuate, so an investor's shares, when redeemed, may be worth more or less than their original cost. For more complete information about these mutual funds, including charges and expenses, call 1-888-568-2542 for a prospectus. Please read the prospectus carefully before investing or sending money. Mutual funds are offered through American General Financial Advisors, member NASD/SIPC.

For more complete information about the mutual funds and services, including charges and expenses, please call 1-888-568-2542 for a prospectus kit. Please read the prospectus carefully before investing or sending money. Securities and investment advisory services are offered through VALIC Financial Advisors Inc., member NASD/SIPC.

International fund unit values and returns will fluctuate with market conditions, currencies, and economic climates where investments are made. Higher potential return generally involves greater risk, and short-term volatility is not uncommon when investing in various types of funds, including but not limited to: sector funds, emerging market funds and small & mid-cap funds.

Risks for emerging markets include, for instance, risks relating to the relatively smaller size and lesser liquidity of these markets, high inflation rates and adverse political developments. Risks for smaller companies include for instance, business risks, significant stock price fluctuations and illiquidity. Government securities offer a high degree of safety and are guaranteed as to the timely payment of principal and interest if held to maturity. Fund shares are not insured and their value and yield will vary with market conditions. Investing in higher-yielding, lower-rated bonds has a greater risk of price fluctuation and loss of principal and income than U.S. government securities, such as U.S. Treasury bonds and bills. Treasuries are guaranteed by the government for repayment of principal and interest if held to maturity. Investors should carefully assess the risk associated with an investment in the Fund.

An investment in a money market fund is not insured by the Federal Deposit Insurance Corporation (FDIC) or any other government agency. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it is possible to lose money by investing in the Fund.

For periods prior to inception of Class I shares (11/16/2001), performance is based on the past performance of Class A shares, adjusted to reflect that there are no sales charges paid by Class I shares. The Class A shares do not show the effect of operating expenses currently applicable to I shares. Effective 11/19/2001, SunAmerica Asset Management Corp. assumed management responsibilities.

Performance data does not include plan annual administrative charges of 0.27%. Plan administrative charges do not apply to the VALIC Fixed-Interest Option.

** Performance figure not available due to the inception date of the fund.

*** A VALIC(The Variable Annuity Life Insurance Company Houston, Texas) fixed annuity applicable to policy form GFUA-398.

**** VALIC declares a portfolio interest rate monthly for the Fixed-Interest Option. That declared portfolio interest rate is guaranteed until the end of that month and is credited to all new and old deposits as well as credited interest. The contractual lifetime minimum guaranteed interest rate is 3%; however, VALIC guarantees -- for calendar year 2002 -- a minimum portfolio interest rate of 5.00%. All interest is compounded daily at the declared annual effective rate. VALIC's interest-crediting policy is subject to change, but any changes will not reduce the current rate below the contractually guaranteed minimum or money already credited to the account.

Securities and Investment advisory services are offered through VALIC Financial Advisors, Inc., member NASD/SIPC

AIG VALIC, a member of American International Group, Inc., is the marketing name for the family of companies comprising VALIC Retirement Services Company; VALIC Financial Advisors, Inc.; VALIC Trust Company; and the Variable Annuity Life Insurance Company (VALIC).
